WELCOME TO MONROVIA NURSERY

It's always a pleasure to visit in person with the fine folks with whom we do business. Besides, we're really proud of our growing grounds, shipping and packing department and all — nothing makes us happier than to show them to our customers. We're always grateful for your helpful suggestions, too, for we want to do everything we can to improve our service to you. So plan to visit us whenever you can, for as long as you can. If you'd like to be met at the train, plane or bus, just let us know a day ahead and we'll be there!

CONIFERS

You are asked so often for plants that require very little care, but always look attractive. Your answer is **Conifers**—the most graceful and beautiful of all plant life. Evergreen, of course, and hardy, Conifers come in all shapes and sizes from low-growing ground covers to stately spreading trees. Whatever the variety, the MN label is your assurance of Conifers with the husky root systems that these species more than any other require for good growth and appearance.

JUNIPERUS C. ARMSTRONG
AND
JUNIPERUS SABINA TAMARISCIFOLIA
FOR DESCRIPTION SEE PAGE 3

ARBORVITAE—see Thuja

BIOTA—see Thuja

	2 1/4" Pot	1-Gal.	5-Gal.
CEDRUS atlantica (seedlings). Atlas Cedar (6)17 1/2
Medium sized, handsome tree having rigid branchlets and gray-green foliage. These are grown from seeds and will vary somewhat in color and form.			
CEDRUS atlantica glauca (seedlings). (6)17 1/2
Similar to Cedrus atlantica except the foliage is a sparkling blue and more compact. Although the greatest effort was made to secure seeds from true parent trees, seedlings will vary somewhat in color and form.			

2 1/4" Pot 1-Gal. 5-Gal.

Cedrus deodara. California Christmas Tree (7)..... .17 1/2 .50 1.85

One of the finest large conifers for the southwest. Makes a tall spreading pyramid of fine silvery-grey foliage. It has a long, useful life as a small tub specimen.

B & B 30" 2.00 **36"** 2.25 **48"** 3.25 **60"** 4.25

Cedrus libani. Cedar of Lebanon (5)..... .17 1/2 -----

Similar to the Cedrus deodara, except its needles are shorter and more green. The Cedrus that has historical and biblical references.

CHAMAECYPARIS lawsoniana allumi. Blue Lawson Cypress (5) .20 .50 1.85

This is by far the most popular and universally useful of all the varieties of Lawson Cypress. Makes a formal pyramid of metallic, blue-green foliage, closely set and fairly slow in growth.

B & B 30" 1.85

Chamaecyparis lawsoniana azurea (5)..... .20 .50 -----

A new sport of Chamaecyparis allumi having a deeper blue color than the allumi. It is very symmetrical and compact.

B & B 30" 1.85

Chamaecyparis lawsoniana ellwoodi (5)..... .17 1/2 .50 1.85

This refined slow growing dwarf shrub is unusually compact. Its gray-green foliage and symmetrical neat habit of growth make it very desirable.

B & B 15" 1.95

Chamaecyparis lawsoniana knowfeldensis (5)..... .25 .75 -----

A compact, neat growing, dwarf shrub. The color is sage-green but not glaucous. The growth is somewhat slow.

Chamaecyparis lawsoniana stewartii. Golden Lawson Cypress (5)..... .17 1/2 .50 1.85

Another reliable conifer for specimen planting. New growth rich golden yellow.

B & B 30" 1.95

CUPRESSUS arizonica. Arizona Cypress (Seedling) (6)..... .12 .40 1.65

Tall, narrow, pyramidal conifer with bluish-green foliage. Does well on the desert and also along the coast.

Flats 4.00

Cupressus arizonica pyramidalis (6)..... .20 .50 1.95

A new very symmetrical, compact form of Arizona Cypress of an intense silvery-blue color. Make excellent dense pyramidal specimens without shearing. Cutting grown.

Cupressus forbesi. Forbes Cypress, Tecate Cypress (8)..... .12 .40 1.65

Dark green foliage superior to Monterey Cypress and is replacing that species for hedges, etc., because of its immunity to the cypress fungus.

Flats 4.00

Cupressus sempervirens glauca. Blue Italian Cypress (7)..... .17 1/2 .50 1.85

This is the best Italian Cypress. Makes narrow dense column of dark, bluish-green foliage. Cutting grown from especially choice specimens to insure true type. This one is so superior that we do not offer other types.

2-gal. 1.35

GINKGO biloba. Maidenhair Tree (4)..... .20 .60 1.95

A very tall-growing, spreading tree having light green, strangely dissected leaves, not easily affected by disease, dust, or smoke. The leaf pattern on this tree makes it different.

	2 1/4" Pot	1-Gal.	5-Gal.
JUNIPERUS chinensis Armstrong (3)20	.50	1.85
Fine, gray-green foliage, and more compact than Pfitzer's Juniper. Dwarf hardy variety. Useful shrub for foundation plantings, etc. See picture. Page 1.			
3" pot35		
Juniperus chinensis columnaris (3)25	.60	2.25
Tall growing, columnar juniper with blue-green foliage. Makes a beautiful specimen.			
3" pot45		
B & B 36"	2.50		
48"	3.50		
Juniperus chinensis hetzi (3)20		
Much more upright and symmetrical than the Juniperus pfitzeriana, but the same blue-green color.			
Juniperus chinensis hetzi glauca (3)20		
The needles on this variety have a silvery-blue cast.			
Juniperus chinensis keteleeri. Keteleer Juniper (4)25	.75	2.50
Broadly pyramidal in habit with ascending branches. The loosely arranged foliage of bright green color adds accent to any grouping.			
3" pot45		
Juniperus chinensis pfitzeriana (3)17 1/2	.50	1.85
Very hardy, low growing juniper, dwarf and spreading with soft, deep green foliage. For low accent and ground cover.			
2-gal.	1.35		
B & B 30"	2.50		
3" pot35		
Juniperus chinensis pfitzeriana Blue (3)25	.60	2.25
A sport of Juniperus c. pfitzeriana that is not only more compact, but is distinguished by its feathery, soft blue foliage.			
3" pot45		
Juniperus chinensis pfitzeriana compacta. Compact pfitzer (3) ..	.25	.60	2.25
Similar to the Juniperus pfitzeriana except that the habit of growth is extremely more compact and symmetrical.			
3" pot45		
Juniperus chinensis prostrata. Trailing Juniper (3)17 1/2	.50	1.85
One of the finest junipers for covering banks. Creeps close to the ground, making a close cover of rich green foliage.			
B & B 24"	1.85		
3" pot35		
Juniperus chinensis torulosa. Hollywood Juniper (4)25	.75	1.95
This very artistic growing shrub combines well with modern architecture. The distinctive stems assume a twisted appearance. The green foliage is always very neat in appearance.			
B & B 36"	2.25		
48"	2.95		
3" pot40		
Juniperus conferta. Shore Juniper (5)20	.50	1.85
Prostrate and spreading, the attractive, light-green foliage is unaffected by sun or salt wind. It hugs the ground with arching branchlets. Very desirable.			
3" pot35		
Juniperus excelsa stricta. Spiny Greek Juniper (4)20	.50	
A narrow columnar, semi-dwarf juniper, with sharp, spiny foliage of glaucous blue color. Its dense formal growth makes it useful in many ways.			
Juniperus sabina tamariscifolia. Tamarix Juniper (3)20	.50	2.00
Best known of the slow growing, low spreading junipers. Very hardy and useful for bank cover. Blue-green foliage. See picture. Page 1.			
3" pot35		
Juniperus scopulorum Chandler Silver (4)			2.75
Pyramidal, compact form having an attractive, bluish-silver color.			

	2¼" Pot	1-Gal.	5-Gal.
Juniperus virginiana. Red Cedar (2)15	.50	-----
Pyramidal, symmetrical tree with attractive foliage. Seedlings.			
3" pot25		
Juniperus virginiana burki. Burk Red Cedar (2)25	.75	2.50
Narrow pyramidal and of course, dense, steel-blue foliage. In fall the color changes to an attractive reddish cast. Color of this newer form is possibly the best of the red cedars.			
3" pot50		
Juniperus virginiana canaerti (2)25	1.00	2.95
Extremely rich, dark green foliage. Continues its rich color all year. Grows in pyramidal form. Very hardy.			
3" pot50		
Juniperus virginiana glauca (2)20	.60	2.25
Most outstanding feature is the silvery-blue color. One of the few evergreens that thrive over the entire country. Grows in pyramidal form. Trim to produce compactness.			
3" pot40		
Juniperus virginiana tripartita (2)20	.50	-----
A Juniper that is very similar to Juniperus Pfitzeriana, but more densely branched, and a tendency to grow more dwarf.			
LIBOCEDRUS decurrens. Incense Cedar (5)17½	.50	1.85
Tall, compact, pyramid of deep green. Very symmetrical. Grows easily. A native of California.			
PINUS canariensis. Canary Island Pine (7)15	.45	1.75
Tall, slender pine tree making rapid growth. Long needles in large tufts make this a fine specimen. New growth silvery blue.			
Pinus halepensis. Aleppo Pine (7)15	.45	1.75
A fast growing pine recommended for dry locations. Needles bright green.			
Pinus mugo mughus. Mugho Pine (2)20	-----	-----
A popular dwarf growing, many stemmed variety of an attractive shade of green. This is a variety of the Swiss Mountain Pine.			
Pinus nigra. Austrian Pine (4)15	-----	-----
Unusually deep green foliage that appears black from a distance.			
Pinus pinaster. Maritime Pine (7)15	-----	-----
Very aristocratic in appearance; heavy large needles and dense foliage. Native of Mediterranean area.			
Pinus pinea. Italian Stone Pine (7)15	.45	1.75
Tall growing tree with long, spreading branches; forming in older trees a broad, flat-topped head. A tree of picturesque habit.			
Pinus radiata. Monterey Pine (7)15	.45	1.75
Fast growing pine for quick effects. Very bushy when young. Bright green needles. Makes a medium size picturesque tree when older.			
Pinus sylvestris. Scotch Pine (2)15	-----	-----
One of the hardiest of pines. Good growing characteristics. Very picturesque.			
PODOCARPUS elongatus (9)25	.75	2.25
Beautiful, evergreen trees with long yew-like leaves having irregular structure and branchlets. The dark, blue-green leaves are soft and narrow.			
Podocarpus macrophylla (7)17½	.45	1.85
One of the finest, evergreen, specimen shrubs. Often trained by slight pruning to make a tall, slender column of deep green narrow leaves. Stands considerable shade or light sun. Will grow as a tubbed plant indoors, as in hotels, etc.			
SEQUOIA gigantea. Giant Sequoia (6)25	.75	2.50
The "Big Tree" of the Sierras. Attractive, neat-looking blue-green foliage, forming a perfect cone as it grows. Grows slowly.			

	2 1/4" Pot	1-Gal.	5-Gal.
Sequoia sempervirens. Coast Redwood (7)17 1/2	.50	1.85
Tall, narrow evergreen tree producing a straight trunk with reddish bark and narrow spreading, deep green foliage. Fast growing hardy conifer.			
TAXUS baccata pyramidalis. English pyramidal Yew (5)20	---	---
Same general foliage characteristics as other English Yews, but more symmetrical and pyramidal.			
Taxus media hicksi. Hicks Yew (4)20	.75	---
Evergreen, of very good conformation, upright in growth with ascending branches. Foliage is a bright dark green. This is a good item for foundation plantings.			
3" pot40		
THUJA occidentalis pyramidalis. American Pyramidal Arborvitae (2)17 1/2	.50	1.85
Very valuable for landscaping. Extremely well adapted for colder areas. Compact formal outline.			
3" pot35		
Thuja orientalis aurea nana. Dwarf Golden Arborvitae, Berckman's Golden Arborvitae (5)20	.50	1.85
Most popular dwarf arborvitae. Slow growing, dense and shaped like a pointed globe. Fern-like branchlets bright golden yellow all year around.			
2-gal.	1.35	B & B 18"	2.25 3" pot
			.35
Thuja orientalis bakeri (5)17 1/2	.50	1.85
A compact growing pyramidal arborvitae. Foliage has a light green color. Very good as a taller accent conifer. Better for hot, dry locations.			
3" pot35		
Thuja orientalis beverlyensis. Beverly Hills Arborvitae (5)20	.50	1.85
Slender growing conifer, bright golden yellow foliage.			
2-gal.	1.35	B & B 36"	2.50 48"
			3.50
3" pot35		
Thuja orientalis Blue Cone (5)17 1/2	.50	1.85
Upright, pyramidal thuja with especially compact foliage having a blue cast that harmonizes well with other foliage.			
3" pot35		
Thuja orientalis Blue Spire. Blue Column Arborvitae (5)17 1/2	.50	1.85
Fine bright green foliage with bluish tips.			
3" pot35		
Thuja orientalis Bonita Upright (5)17 1/2	.50	1.85
A most perfect symmetrical cone-shaped green arborvitae never growing over 5-6' in height. Very desirable.			
B & B 36"	2.50		
Thuja orientalis compacta. Compact Arborvitae (5)17 1/2	.50	1.85
Attractive, compact, globe-shaped conifer with bright green dense foliage.			
B & B 24"	2.25	3" pot35
Thuja orientalis pyramidalis. Oriental Pyramidal Arborvitae (5)17 1/2	.50	1.85
Tall narrow pyramid of compact deep green foliage. One of the best arborvitaes for accent planting.			
3" pot35

AZALEA ERIC SCHAME
SEE PAGE 9 FOR DESCRIPTION

Adrian Stuyart.

Large rich, lavender, double flowers. A compact and bushy grower. Blooms midseason to late.

Albert and Elizabeth.

Large, magnificent, double blooms of pink, shading into lighter pink and white toward the center. A good grower. Blooms midseason to late. (P.B.)

Avenir.

Double, glowing, coppery-pink flowers. Blooms early to midseason. (P.B.)

Blushing Bride.

Large, double blooms of blush pink. Compact growth. Blooms late. (P.B.)

Chimes.

Semi-double, dark red flowers. A vigorous grower. Blooms midseason to late. (P.B.)

Columbine.

Large double, rich red flowers. Blooms late.

Dame Melanie.

Double variegated rose-pink and white flowers. Blooms midseason.

Dr. Bergmans.

A distinctive Azalea having large double flowers in various shades of pink and rose. The throat is a deep red. Blooms midseason. (P.B.)

Eclaireur.

Double dark red flowers. Blooms midseason.

Eric Schame (Eri).

Double, salmon-pink flowers with white streaked margin. Blooms midseason. (P.B.)
See picture. Page 9.

Etoile de Belgique.

Beautiful dark red flowers. Good growing habits. Blooms midseason.

Glory de Loochristy.

A beautiful, double, salmon-orange flower. A heavy bloomer and compact grower. Blooms midseason. (P.B.)

Hexe.

Medium-sized crimson-red semi-double flowers. Vigorous grower. Blooms midseason. (P.B.)

Ideal Pink.

White margined, pink and rose-red variegations. Blooms midseason. (P.B.)

Jean Hearrens.

A very compact grower with large, double blooms of rose-pink. Blooms midseason to late. (P.B.)

Loelia Alba.

Double fleecy white flowers. Foliage is light green. Blooms early. (P.B.)

Louis van Houtte.

Large semi-double red flowers. Vigorous grower.

Lentegrout.

Semi-double red flowers. Very similar to Hexe except flowers are larger. Blooms midseason. (P.B.)

Mme. Alfred Sanders.

Masses of double, rich red flowers. This beauty is always in demand. Blooms mid-season. (P.B.)

Mme. Charles Vuylsteke.

The brightest, double red flowers. Attractive long, shiny, green leaves. Blooms mid-season to late. (P.B.)

Mme. J. Vervane.

Salmon pink flowers. Blooms midseason.

Mme. Mestdag.

Beautiful variegated pink and rose-red flowers. A compact vigorous grower. Blooms midseason. (P.B.)

Mme. Petrick.

A continuous and profuse bloomer with large, double, cherry red flowers. Blooms early to midseason. (P.B.)

Mme. Petrick Alba.

One of the popular Mme. Petrick Azaleas. A large, snow-white, double flower. Blooms early to midseason. (P.B.)

Mme. Petrick Superba.

Large, double blooms of cherry-pink edged in white. Blooms early to midseason. (P.B.)

Memoire de Sanders.

Bright red double flowers. Excellent for Christmas forcing. Blooms midseason.

Millard.

Large semi-double deep red flowers. Compact growth. Blooms midseason to late.

Miss Cottage Gardens.

Dark, rich red flowers. Excellent for forcing. Blooms midseason. (P.B.)

Niobe.

Produces large, pure, glistening white, double flowers. Very bushy and compact grower. Blooms late. (P.B.)

Orchidflora (Eleanor McGowan).

The huge, double fuchsine-pink flowers make it one of the most spectacular. Blooms midseason to late. (P.B.)

Paul Schame.

The large, double, salmon-pink flowers make an exceptional display. Blooms midseason. (P.B.)

Perle de Noisy.

Large, double flowers, greatly tufted in the center, with an irregular, white margin on each pink petal. Blooms midseason.

Perle de Saffelaire.

A large, double, frosty-white flower. The plant has good growing habits. Blooms late. (P.B.)

Perle de Sweynaerde.

A magnificent, double, velvety white that resembles rose buds when first opening. Blooms midseason to late. (P.B.)

Pink Pearl.

A large, double bloom with a delicate, apple-blossom pink color. Blooms midseason to late. (P.B.)

Romaine de Smet.

Large-flowered, abundant blooming medium light pink Azalea. Blooms early to mid-season.

Simon Mardner.

Beautiful, double, rose-red with lilac overtone. Blooms midseason to late.

Super Orange.

Attractive semi-double salmon-orange flowers.

Sweet Sixteen.

Light pink flowers. Growth similar to Petrick varieties. Blooms early.

Sweetheart Supreme (Pericat type).

A double blush-pink resembling small roses. Blooms midseason to late. (P.B.)

Temperance (Princess Astrid).

A very attractive, light lavender, semi-double flower that blooms late. (P.B.)

Triomphe.

A rapid grower with masses of double, red flowers. Young blooms resemble rose buds. Blooms midseason to late.

Van Damm.

Large, double light pink flowers. Blooms early.

Vervaeana Alba.

An excellent double, white flower. Shiny, deep green foliage. Blooms late. (P.B.)

Vervaeana Variegated.

Lovely, double, salmon-rose in white background. Blooms late. (P.B.)

Wm. Van Orange.

A deep, semi-double, rust-orange flower with unusual fringed petals. Blooms mid-season to late. (P.B.)

SOUTHERN INDICA AZALEAS (8)

SUN-GROWING AZALEAS are BIG NEWS in some sections of the country, familiar and demanded favorites in others. Either way, they're bound to be money-makers for you. Given proper growing conditions, the Southern Indicas produce a mass of color in early spring almost impossible to obtain with other plants. The listed MN varieties have proven the most satisfactory and popular. Priced as follows:

2 1/4" Pot	3" Pot	1-Gal.	5-Gal.
.17 1/2	.30	.60	2.50

Coccinea.

Beautiful, large deep lavender flowers. Blooms late.

Duc de Rohan.

A semi-dwarf and compact grower. Delicate salmon-pink flowers are borne in profusion. Blooms midseason.

Iveryana.

Large white flowers with rose streaks. Blooms midseason.

Pride of Dorking.

Medium in growth, making a good show with deep carmine-red flowers. Blooms late.

Pride of Mobile.

Countless watermelon pink flowers; similar to Formosa in growth, but lighter and more delicate. A rugged, fast grower. Blooms midseason to late.

Prince of Wales.

Delicate, light cherry-red blooms. Really sensational. Blooms midseason to late.

**We cannot promise buds on the plants listed in this package.
They are selected for the quality of the plant entirely.**

Adolphe Audusson Variegated. A

Very large, semi-double, dark red, spotted white flowers. A vigorous plant with a sturdy and compact habit of growth. Blooms midseason.

Alba Plena. C

Large, formal double, white flowers with imbricated petals. A medium bushy shrub with spreading branches and glossy, light green foliage. Blooms early.

Bella Romana (Mme. de Strekaloff) (Tricolor Imbricata). C

Light pink, profusely striped and splashed with carmine. Rose-form, double flowers of good size, excellent for corsages. Bushy, vigorous growth with large, light green foliage. Blooms midseason.

Blood of China (Victor Emmanuel II). C

Large, semi-double to loose peony form, deep salmon-red flowers. Vigorous, compact form of growth. Blooms late.

Chandleri Elegans Variegated (Elegans)..... C

Very large, high centered, anemone form with large petals. Rose-pink with large, irregular, white variegations. Prolific flowering. This is one of the largest and most spectacular of all camellias. Slow growing, with a spreading, bushy growth. Blooms midseason.

C. M. Wilson (Grace Burkhard)..... A

Beautiful light pink sport of Chandleri Elegans. Anemone form. Blooms midseason.

Colonel Firey (C. M. Hovey) (Duc de Devonshire) (Solaris) (Firey King)..... C

Very large, formal double, dark red flowers with imbricated petals. One of the finest and most admired of red camellias. Slender growth with long, twisted, narrow, dark green leaves. Blooms midseason to late.

Covina..... C

Medium, semi-double, rose-red flowers freely produced over a long period. Vigorous, compact, bushy plants well suited to landscape planting. Foliage excellent, dark green. Will grow in sun. Fine for pot or tub specimen. Blooms midseason.

Daikagura Variegated (Kiyosu)..... C

Large, peony-type rose-red splotched white, with clusters of small petals in center. Slow, compact, upright growth and dull green foliage. One of the most popular of the variegated camellias. Blooms very early.

Debutante (Sara C. Hastie)..... C

Large, light pink, tightly formed peony type. One of the most vigorous growers. Upright growth with heavily serrated, light green foliage. The finest pink peony-form. Blooms early to midseason.

Donckelari (English)..... A

Very large semi-double red marble white in varying degrees. Slow bushy growth. Blooms midseason.

Eleanor of Fairoaks (Vedrine Varieg.)..... C

Large, semi-double to loose peony-form, deep ruby-red flowers marbled white. Vigorous, upright, spreading growth, foliage dark green. Blooms early to midseason.

Emperor of Russia..... C

A large, brilliant scarlet flower, having large petals around the outside, with smaller petals towards the center, making a multi-centered double to peony-form. Slow compact growth. Blooms midseason.

Emperor Wilhelm (Gigantea) (Magnolia King)..... B

Huge, semi-double to peony form. Rich red flowers marbled white. Vigorous upright loose growth. Leaves large and dark green. Blooms midseason.

Fimbriata Superba (Fred Sander)..... C

Large, semi-double crimson flowers with curled fimbriated petals. A compact, upright, and vigorous grower. Blooms midseason to late.

General Dwight Eisenhower..... B

Large, full peony to anemone form deep red. An upright, compact, and vigorous grower. Dark green shiny leaves. Blooms midseason.

Glen 40..... B

A beautiful, deep red, very large, formal to rose-form double with imbricated petals. Slow, upright, and a compact grower with an occasional variegated bloom on same plant. Blooms midseason to late.

Grandiflora Rosea (Lady Clare) (Empress)..... C

The largest, semi-double deep pink. Vigorous, bushy growth, with shining, pointed dark green foliage. Blooms mid-season.

H.E.R. Collection..... Not Labeled

Mixed varieties only. Plants in this collection are all from fine types, no seedlings. You will find many excellent and choice varieties among these plants.

2" pot20 3" pot30 1-gal.65 5-gal. 1.75

- High Hat.** **C**
A soft, shell-pink sport of the old favorite Daikagura with large, peony-form blossoms. A slow, compact, upright grower with dull green foliage. Blooms early to midseason.
- Jordan's Pride (Herme) (Hikaru-Genji) (Souv. de H. Guichard).** **C**
Our improved strain is predominantly double peony centered. A striking, light pink with an irregular, white margin and streaked with deep pink. Profuse blooming even while young. One of the few fragrant camellias. Blooms midseason.
- Kumasaka (Lady Marian) (Beni-Karoko) (Jeanne Kerr).** **C**
A bright, rose-pink with slightly darker shades along the veins of the petals. Our strain is predominantly double peony centered. Free flowering, even while young. Excellent for cutting. Midseason to late.
- Laurel Leaf (Lallarook).** **B**
Full double, imbricated, large, pale pink flowers, softly marbled white. The outer petals are a deeper pink. Slow and compact in growth, the foliage resembles that of a Laurel. Blooms midseason to late.
- Lindsay Neill.** **C**
Dark red and marked with pearly white, the Lindsay Neill camellia has a large, semi-double, peony-type flower with stamens among its petals. The plant, open and spreading in its growth habit, has the heavy glossy foliage so highly desired. Blooms early.
- Magnoliaeflora (Southern)** **A**
Medium large semi-double blush pink. Compact upright growth. Blooms midseason.
- Margarete Hertrick** **A**
One of the most beautiful camellias. It is a vigorous, upright compact grower and produces large formal double white flowers during midseason. One of the outstanding characteristics of its flower is its ability to retain its fresh appearance after being picked for a number of days.
- Margaret Jack (Findlandia Varieg.)** **B**
Large fluted semi-double white-streaked crimson. Blooms early to midseason.
- Mathotiana (Julia Drayton) (Purple Dawn) (William S. Hastie) (Purple Emperor).** **C**
One of the largest and most spectacular red camellias. Brightest scarlet, double, rose form with unusually large textured and veined petals. A handsome shrub of vigorous, compact growth and dark green leaves. Occasionally this variety will show a spot of white on the bloom. Blooms midseason to late.
- Mathotiana Variegated (Julia Drayton Var.) (Paulina).** **C**
Attractive, large, scarlet flowers blotched with white. Rose form, double flowers with unusually large petals. Blooms midseason to late.
- Monjisu (California Donckelari Var.).** **C**
Semi-double, cherry-red flowers marbled with white. Very bushy growth. Young plants bud heavily. Blooms midseason.
- Mrs. Charles Cobb.** **C**
Large, dark red, semi-double to loose peony-form. A fast, upright, spreading, symmetrical grower with light green, glossy foliage. Blooms midseason.
- Mrs. Tingley.** **A**
Large formal double salmon-silver pink. Very compact growth. Blooms midseason.
- Nagasaki (Lady Audrey Buller) (Candida elegantissima) (Mikenjaku).** **C**
Very large, semi-double, rose-pink marbled white with large ruffled petals. Slow, spreading growth, with an abundance of dark green foliage. Blooms midseason.
- Pink Perfection (Frau Minna Seidel) (Usu-Otome).** **C**
Medium, formal double flowers of soft shell pink. Petals imbricated. A long season bloomer. One of the most popular of all camellias. Vigorous shrub with erect growth and rounded glossy leaves. Blooms early to mid-season.
- Pope Pius IX (Imbricata Rubra Plena) (Prince Eugene Napoleon) (Lardiner's Red) (Carlotta Grissi) (Rubra Plena).** **C**
Large, formal double, red flowers with imbricated petals. Upright, compact growth. One of the finest reds. Blooms midseason.

- Princess Baciocchi.** **C**
 Large, carmine-red, semi-double to semi-peony form. Vigorous and bushy, compact growth with dark-green, rounded foliage. Blooms midseason.
- Prof. C. S. Sargent.** **C**
 Medium sized, dark red, full peony type flower with ball of incurved petals edged with a frill of broader petals. Vigorous, bush and upright. Very popular variety. Blooms midseason.
- Purity (Neige d'Ore) (Shiragiku).** **C**
 Our strain is predominantly formal double. This pure white, symmetrical flower is one of the finest and most popular white camellias. Blooms midseason to late.
- Rose Dawn (Davis Rose Dawn).** **B**
 A pleasing, deep rose pink flower, formal to rose form in type. Vigorous, spreading growth. Blooms midseason.
- Ruby Glow (Vedrine) (Margaret Lawrence) (Bolen's Pride).** **C**
 Large, brilliant, deep-red flowers semi-double to loose peony form. A vigorous, upright grower. Blooms early to midseason.
- Te Deum (Dr. Shepherd) (Firegold) (Moragne).** **A**
 Large, beautiful, deep red flowers of peony form. Very attractive. Lustrous, dark green foliage, loose habit of growth. Blooms midseason.
- Ville de Nantes.** **A**
 Large fimbriated semi-double dark red blotched white. Compact growth. Blooms midseason.

ROSEDALE'S BEAUTY (Trade Mark Registered). Never before have we had so many favorable comments on any camellia. The demand is increasing more and more. Why? Because it is able to endure more extreme weather conditions either inland or along the coast; because it has the most outstanding foliage—large, deep green leaves (most desirable of any camellia); because it is the most vigorous grower of any *Camellia japonica*; and because it is a bushy, compact grower; and is literally covered with large, double red flowers during February, March and April. Too much cannot be said about its many desirable characteristics. It must always be sold with Trade Mark Registered tags.

GENERAL ORNAMENTAL LIST

	2 1/4" Pot	1-Gal.	5-Gal.
ABELIA Edward Goucher. Pink Abelia (6)15	.40	1.65
One of the most useful shrubs as it can be confined to any desired size and can grow in most any location. The shiny, deep green leaves are tinted with an amber hue. The dainty, clear pink flowers are produced all summer. Evergreen in warmer areas.			
Abelia grandiflora. White Abelia (5)15	.40	1.65
A very hardy shrub of medium size with graceful, arching branches clothed in deep green, shiny, small leaves; new growth is reddish. The white flowers are borne most of the summer. Evergreen in warmer areas.			
ACACIA baileyana. Silver Wattle (9)15	.45	1.85
The best Acacia for street planting, lawns, for shade, etc. Will not lift the soil or heave pavements. Medium-sized evergreen tree with round head of blue-green fern-like foliage and masses of fluffy yellow flowers in late winter and spring.			
Acacia floribunda. Everblooming Acacia (9)15	.40	1.85
Very popular small round headed evergreen tree. Foliage a good green, clean and neat; flowers bright yellow, fluffy appearing most of the year.			
Acacia latifolia. Bush Acacia (9)15	.40	1.65
A small evergreen tree or large bush with long leaves and bright yellow fluffy flowers in spring. Much used as a background shrub or wind break.			
Acacia melanoxylon. Black Acacia (9)15	.40	1.85
Fast growing, evergreen tree that produces a dense head of dark foliage, brightened in the spring with creamy-yellow flowers.			
Acacia podalyriaefolia. Pearl Acacia (9)17 1/2	.50	1.85
Beautiful small evergreen tree with roundish oval, silver-gray leaves and rich yellow flowers in long clusters.			
ACALYPHA wilkesiana (Acalypha tricolor). Chenille Plant (10)15	.50
This vigorous, evergreen shrub with dense, multicolored foliage is excellent for creating tropical effects. The basic, bronze-green foliage is accented with variations of white, orange, red and brown.			
ACANTHOPANAX sieboldianus (Aralia pentaphylla) (4)15	.40	1.65
Large growing shrub admired for its arching branches of strongly formed leaves. Its sturdy character adds a striking appearance wherever used. Deciduous.			
ACANTHUS mollis. Grecian Pattern Plant (5)20	.45	1.75
Handsome, evergreen shrub of sturdy character. Large, glossy, black-green leaves are excellent for creating a tropical effect. Prefers shade.			
ACER palmatum. Dwarf Japanese Maple (5)15
A small bushy tree that grows slowly and gracefully. The leaves turn a rich shade of gold and red in the fall. Deciduous.			
Acer palmatum atropurpurea. Blood-leaf Dwarf Japanese Maple (5)25	.85
Similar to Acer palmatum in growth, but the leaves are red all year and become blood-red in the fall.			
Acer paxi. Evergreen Maple (9)20	.60	2.25
Recently introduced from the Orient, this shade tree is proving very satisfactory for Southern and Western United States. It forms a perfect shade tree of fine proportions. Its lustrous, bright green leaves add vivid contrast to the landscape.			

2 1/4" Pot 1-Gal. 5-Gal.

ADENOCARPUS foliosus. Canary Island Lupine (9)17 1/2 .45 1.65

In the spring masses of bright yellow flowers appear on long spikes that resemble the lupine. This evergreen shrub, with its feathery foliage, has many uses and is especially valuable in semi-desert areas.

AGAPANTHUS africanus (A. umbellatus). Blue Lily of the Nile (9) .15 .40 -----

A hardy perennial producing dense masses of long dark green amaryllis-like leaves. The long stems bear umbels of lovely blue flowers in summer.

ALBIZZIA julibrissin. Silktree, Mimosa Tree (7)17 1/2 .45 1.65

A small deciduous tree that develops rapidly. The leaves are light green, frond-like and feathery. In summer, quantities of pink flowers in silken bundles appear at the upper end of the branches.

ALNUS cordata. Italian Alder (5)25 -----

A strong, fast growing very symmetrical tree. Deciduous.

Alnus rhombifolia (A. californica). White Alder (8)15 .50 1.85

Tall growing, shapely tree, native of the California canyons. Develops quickly to make a shade tree of excellent proportions. Deciduous.

1-yr. Bare-rooted seedlings06 each

ALSTONIA yunnanensis (9)20 .50 -----

This evergreen shrub bears heads of small, pink flowers during the spring and early summer. Its leaves are heavily veined.

ALTHAEA alba (Hibiscus syriacus alba). Rose of Sharon (5)17 1/2 .50 1.65

A popular, deciduous shrub of the Hibiscus family. Snow-white flowers brighten the shrub during the summer.

AMPELOPSIS lowi (Parthenocissus tricuspidata lowi) (4)20 .60 -----

A small-leaved Boston Ivy that grows rapidly, but does not make a mass effect. The leaves are small and palmlike, and turn a reddish-gold color in the autumn.

Ampelopsis veitchi (Parthenocissus tricuspidata veitchi).

Boston Ivy (4)15 .45 1.85

Deciduous, close clinging vine, especially suited to cover masonry walls. The pointed leaves, besides making a desirable pattern, turn bright colors in the fall.

AMYGDALUS alba nana (Prunus glandulosa).

Dwarf White Flowering Almond (2)15 .40 1.65

Deciduous shrub 3 to 5 feet high deserving a prominent place in the planting because in spring before the leaves appear it is a mass of dainty double pure white flowers.

Amygdalus rosea nana (Prunus glandulosa). Dwarf Pink

Flowering Almond (2)15 .40 1.65

This is a heavy seller in the spring. Containers showing the plants in bloom never fail to attract attention. Like the White Almond except the flowers are dainty pink. Very hardy.

ANISACANTHUS thurberi (9)25 .75 -----

A low growing compact evergreen shrub with attractive olive green foliage. Terminal clusters of bright orange, tubular flowers are produced freely through spring and summer. Thrives at coast or desert.

ANTIGONON leptopus. Rosa de Montana, Queen's Wreath,

Coral Vine (9)17 1/2 .50 -----

Rapid climbing vine especially adapted to the warmer sections because it makes quick growth and blooms freely. Flowers are bright pink.

2 1/4" Pot 1-Gal. 5-Gal.

ARALIA elegantissima (Dizygotheca elegantissima). (9) **4.50**

An evergreen shrub that lends an exotic touch to any planting. Its dull, deep green, heavily serrated leaves fit in well with modern trend in architecture.

Aralia papyrifera (Tetrapanax papyrifera). Rice Paper

Plant (9) **.15 .40 1.65**

A shrub or small tree used for a tropical effect. Leaves are silvery-green and very large. Good tub specimen for patios.

Aralia sieboldi (Fatsia japonica). Glossy-leaved Rice Paper

Plant (8) **.15 .40 1.65**

Dwarf growing evergreen shrub. Foliage deep green and glossy. Makes an excellent plant for patio planting in open ground or pots. Prefers some shade.

	2 1/4" Pot	1-Gal.	5-Gal.
✓ ARBUTUS unedo. Strawberry Tree (8)15	.45	1.65
Hardy, evergreen shrub growing 8 to 10 feet with serrated, deep green leaves and brilliant red fruit in winter similar to strawberries. Creamy white, bell-shaped flowers appear in early spring. Sells best in spring and fall.			
ARDISIA japonica (6)17 1/2	.60	-----
This plant is very popular because of its bright red berries produced in fall and winter. The large leathery leaves of deep green make it attractive. Requires shade.			
ARRHENATHERUM elatius tuberosum. Oat Grass (8)15	.40	-----
A popular member of the grass family. Leaves are slender blade-like, striped creamy-white and forest green. Excellent for accent and tropical plantings.			
ASCLEPIAS currassavica. Blood Flower (9)20	.50	-----
An attractive perennial plant useful for natural spots in the garden. The blooms are reddish-orange with yellow centers.			
ASPARAGUS plumosus. Asparagus Fern (9)17 1/2	.45	-----
Small vine with dainty fern-like plumes of foliage. Much used as a bouquet filler and ideal for shady spots in patios or in the open ground.			
Asparagus sprengeri (9)17 1/2	.45	-----
Leaves about 3/4 of an inch long on long, arching branches making a fluffy mound of green foliage. Beautiful in hanging baskets.			
ASTER frikartii. Wonder of Staefa (5)50	-----
One of the finest perennial plants. With its violet-blue flowers it's an impressive sight from June to December. Full sun or part shade. Flowers are larger than Aster fruticosus.			
Aster fruticosus. Shrub Aster (9)15	.40	-----
A small, evergreen shrub that is completely covered all spring with masses of deep lavender flowers. Likes full sun.			
AUCUBA japonica variegata. Gold Dust Plant (7)20	.60	1.95
Small to medium-sized, compact evergreen shrub with large, green, glossy leaves splashed with gold. Splendid for tropical effect. Shade-loving.			
AZARA microphylla (9)20	-----	-----
Medium-sized evergreen shrub, with slender stems that droop gracefully. Small fragrant yellow flowers with chocolate fragrance appear in the fall and spring.			
AZALEAS. Belgian Indicas (9)60	2.50
Many fine varieties of these very popular Belgian Indicas are available. Especially grown for general landscape use. See Azalea Section, page 7 for varieties.			
Azaleas. Southern Indicas (8)60	2.50
Favorite varieties available for general landscaping. See Azalea Section, page 11 for varieties.			
BAMBURANTA (10)25	.75	2.50
Tropical shrub combining the Maranta leaves and Bamboo habit of growth. Excellent for "blending in" the tropical atmosphere. Used in planters.			
BAUHINIA galpini (9)25	.60	2.50
A splendid South African evergreen shrub for use in the warmer areas. Clusters of brick-red flowers are produced freely.			

	2¼" Pot	1-Gal.	5-Gal.
Bauhinia purpurea. Orchid Tree (10)17½	.45	1.85
This desirable small tree produces a profusion of orchid-like flowers in the spring. Although we take utmost care to select seeds from plants having the true orchid color flower, variations might appear due to cross pollinization by birds and insects.			
BEAUMONTIA grandiflora. Easterlily Vine, Herald's Trumpet 10)20	.50	1.85
A fast growing, truly individualistic, evergreen vine; excellent for tropical effects with beautiful, large, dark green leaves, and fragrant, showy, trumpet-shaped, white flowers.			
BEGONIA. Mme. Waterloo (10)40	-----
Rose-red foliage and small pink flowers make this plant so very useful. Excellent for contrast against the gray foliage.			
Begonia. Angel Wings (10)75	-----
Similar to Begonia Mme. Waterloo except the leaves are larger and less red.			
BELOPERONE tomentosa. Shrimp Plant, False Hops (10)15	.40	1.65
Dwarf, everblooming, evergreen shrub making a mass of shrimp-like flowers consisting of terra cotta colored scales overlapping to appear like a shrimp.			
BERBERIS thunbergi. Japanese Barberry (3)15	.40	-----
A neat compact deciduous shrub with dense dark green foliage and bright red winter berries. Makes an excellent hedge or specimen plant. Leaves turn rich red in fall. Very hardy.			
Berberis thunbergi atropurpurea. Red Japanese Barberry (3)15	.40	1.65
Same as above except the foliage is an attractive bronzy-red all summer. They become a deep amber-red in the fall.			
BETULA alba. European White Birch (2)17½	.60	-----
A slender, graceful picturesque tree. The white flaky bark blends well with surroundings. Deciduous.			
Bare-root Seedlings08		
BIGNONIA chamberlayni (Anemopaegma chamberlayni). Yellow Trumpet Vine (7)17½	.45	1.85
Strong growing, evergreen vine with clusters of showy, yellow-orange, trumpet shaped flowers. An ideal cover for fences, etc., where it is desirable to get a quick cover.			
Bignonia cherere (Phaedranthus buccinatorius) Scarlet Trumpet Vine (10)17½	.45	1.85
A beautiful evergreen vine that will stand slight frosts. Makes a heavy, verdant cover and large sprays of huge trumpets. Bright red with a yellow tube. The cuttings for these are taken from the best large leaf type.			
Bignonia tweediana (Doxantha unguis-cati). Catclaw Yellow Trumpet (6)15	.45	1.85
Hardy, deciduous vine with slender shoots that cling to any surface. Flowers bright yellow, trumpet 3 inches long and 4 inches across.			
Bignonia venusta (Pyrostegia ignea). Flame Vine (10)17½	.50	1.85
During the winter months, brilliant trumpet-shaped orange flowers hang in great masses. This evergreen vine is easy to grow and suited for warmer regions.			
3" pot30		
Bignonia violacea (Clycostoma callistegioides). Lavender Trumpet Vine (9)17½	.45	1.85
Free flowering, delightful evergreen vine for sun or shade. Not rank in growth, and lovely in spring and summer when covered with light lavender, gloxinia-like flowers. Leathery, thick leaves.			

BOUGAINVILLEAS (10)

2 1/4" Pot 1-Gal. 5-Gal.

Most colorful, free blooming, tropical evergreen vines. Massive clusters of spectacular flower-bracts are produced most of the year.

BOUGAINVILLEA Barbara Karst (10)25 .50 1.85

Large, brilliant red flower-bracts are borne almost continually. Plants bloom at an early age and create a riot of color.

Bougainvillea brasiliensis (B. spectabilis) (10)25 .50 1.85

An indescribable sight with its lavish clusters of purple flower-bracts.

Bougainvillea California Gold (10)35 .75 2.25

As its name suggests, rich, golden bracts are borne profusely for many months in the year.

Bougainvillea Orange King (10)25 .50 1.85

Bronzy-gold flower-bracts are produced on graceful sprays of this very vigorous Bougainvillea.

Bougainvillea Rose Queen (Trade Mark Registered) (10)35 .85 2.25

A spectacular beauty that is completely covered with delicate rose-carmine blooms most of the year. A vigorous, rapid grower that requires very little care. Introduced last year.

5-gal. standard 3.50

Bougainvillea sanderiana (9)25 .50 1.85

Hardest bougainvillea. Grows rapidly, the top filling out with a glowing mass of purplish-magenta flower-bracts.

Bougainvillea Scarlett O'Hara (San Diego) (10)25 .50 1.85

The most vigorous and fast growing of bougainvilleas. Spectacular bright red flower bracts on pendulous sprays create a blaze of color.

5-gal. standard 2.95

Bougainvillea Temple Fire. Red Bush Bougainvillea (10)40 .85

A new introduction, produced in collaboration with Evans & Reeves Nurseries. The amazing characteristic of this variety is its tendency to grow as a bush—compact and uniform. Deep red flower-bracts are produced continually during warm weather. Can be used as a hedge.

3" pot60

Bougainvillea Texas Dawn (Trade Mark Registered) (10)40 .95 2.50

Highly spectacular, this vine is exceptional for the myriad of Tyrian rose, gracefully formed bracts it suspends from long, arching sprays. Too much cannot be said of the shade of rose that colors the bracts—only the delicate pink of a dawn sky can begin to describe it. Other features of this new beauty are: its fast growth, with ability to maintain its symmetry and its demands for little or no care. Practically ever-blooming, the new Bougainvillea Texas Dawn furnishes a blaze of color. See picture. Page 23.

3" pot60

BOUVARDIA Albatross (10)17 1/2 .50

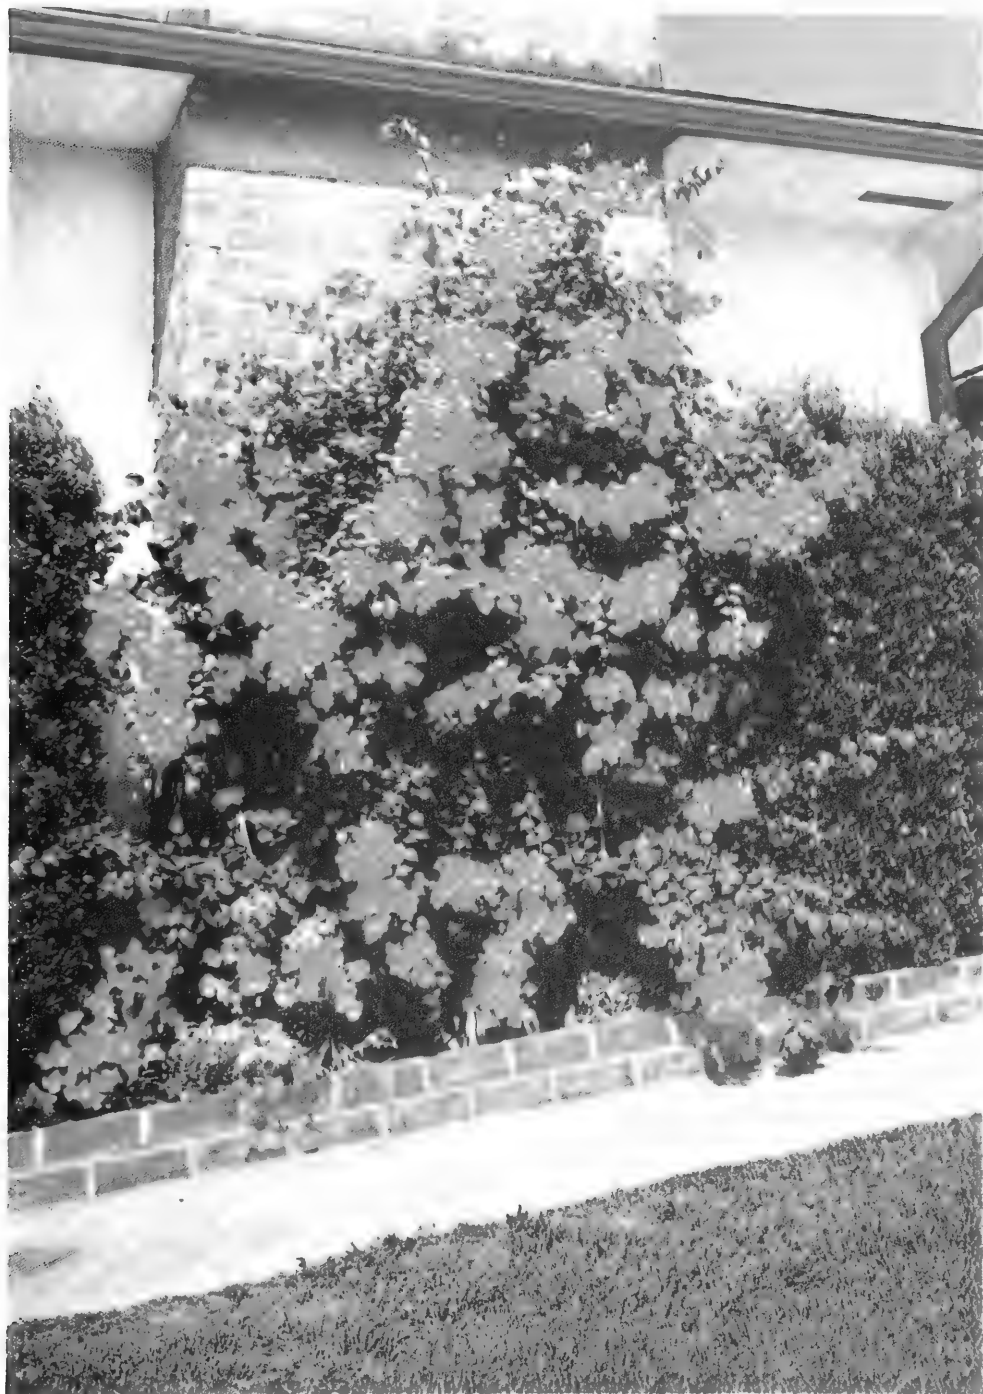

This low growing evergreen shrub is the finest, white flowering Bouvardia and is sweetly fragrant. The flower tubes are very long, and the petals are wide spreading. An improved humboldti.

Bouvardia Fire Chief (10)20 .60

This low growing evergreen shrub has clusters of bright red, tubular flowers which bloom most of the year. Takes full sun or semi-shade. One of the finest bouvardias.

BRACHYSEMA lanceolatum. Scimitar Plant (9)20 .50

Small, compact, evergreen shrub, unusually beautiful during the spring when it is covered with quantities of red flowers resembling sweet peas.

BOUGAINVILLEA TEXAS DAWN
FOR DESCRIPTION SEE PAGE 22

BRUNFELSIA calycina floribunda. Yesterday, Today and

Tomorrow (8) **.20 .50 1.75**

A very fine shrub for specimen planting for spring bloom. Has attractive foliage and flowers are sweetly scented. Open deep violet and fade to light violet or white. Sun or shade.

Brunfelsia calycina eximia (8) **.20 .50** -----

The rich purple flowers fade each day to lighter shades and each new shade is as beautiful as the one before. This compact symmetrical evergreen shrub is always a source of comment.

BUDDLEIA colvilei kewensis. Rose-pink Butterfly Bush (5) **.15 .40** -----

In the spring it bears massive pannicles of large white-eyed, rose-pink flowers. The foliage is silvery-green. The flowers are borne on terminal shoots of the preceding year's growth. This buddleia eventually becomes quite large. Deciduous.

Buddleia Fascinating. Pink Butterfly Bush (4) **.15 .40** -----

This beautiful buddleia bears long spikes of graceful cattleya-pink blooms during late summer and fall. The more they are cut, the more new spikes of flowers appear. Deciduous.

BUXUS harlandi. Korean Boxwood (5) **.15 .40** -----

Evergreen shrub that is neat and compact in growth. Endures more cold than Buxus japonica, and foliage is a darker green.

Buxus microphylla japonica. Japanese Boxwood (8) **.40** -----

Because of its close growing habit, small bright green leaves and the fact that it withstands shearing better than most plants, boxwood becomes the finest shrub for use in hedges, topiary (globes, pyramids, etc.) and specimen plantings.

Flats **\$4.00** **B & B Globes 12"** **1.95**
5-gallon globes **1.75** **B & B Pyramids 15"** **1.95**
5-gallon pyramids **1.75**

CALADIUM esculentum (Colocasia esculenta). Elephant's Ear (9) ---- **.75 1.95**

A tuberous plant from the tropics. Its large, bright green leaves are spectacular. Some attain a length of 3 ft. Prefers rich soil and partial shade—used for tropical effects in landscaping.

CALLIANDRA tweedi. Brazilian Flame Bush (10) **.20 .50 1.75**

Semi-tropical, evergreen shrub having a distinct, semi-lacy foliage. Attractive, scarlet fluffy ball-shaped flowers appear in the latter part of the spring and summer.

CALLISTEMON lanceolatus (C. citrinus splendens)

Red Bottle (8) **.20 .50 1.75**

This medium-sized bushy evergreen shrub bears masses of fluffy bright red flowers most of the year. New growth of pronounced reddish tones matures to a shining green. Hardy, sun-loving and drought resistant, this new Bottlebrush is one of our finest landscape plants.

Callistemon rigidus. Rigid Bottlebrush (8) **.15** -----

Hardy variety suited to more exposed positions. Sun; withstands wind quite well. Stiff, narrow foliage with bright red flowers in spring.

Callistemon viminalis. Weeping Bottlebrush (8) **.15 .40 1.75**

Tall slender shrub or small tree with slender, semi-weeping branches. Cascades of bright scarlet bottlebrush blooms. Grows in sun.

CAMPHORA officinalis (Cinnamomum camphora).

Camphor Tree (8) **.15 .45 1.85**

The standard tree in many communities. Uniform, light green foliage becomes colorful with the bronzy-red new growth. Dark grey to black trunk and branches very attractive.

	2 1/4" Pot	1-Gal.	5-Gal.
CAMP SIS grandiflora (Tecoma grandiflora) Trumpet Creeper (5) ----	.95	2.50	
Large, trumpet-shaped flowers of brilliant scarlet-orange are produced in great clusters in the spring and summer. Grafted plants.			
Campsis grandiflora (seedlings)15	----	-----
Campsis Mme. Galen (5)95	2.50	
This fast growing deciduous vine bears large clusters of trumpet shaped brilliant scarlet-orange flowers during early spring. Produces more flowers than other varieties. Grafted plants.			
✓ CARISSA grandiflora. Natal Plum (10)15	.40	1.65
Exceptionally fine evergreen ornamental of neat growing habit. Almost continuously sprinkled with its waxy, white flowers. The bright green glossy foliage and fragrant flowers help make this an excellent all-round plant.			
✓ Carissa grandiflora prostrata. Prostrate Natal Plum (10)17 1/2	.45	1.75
Low spreading shrub. Good for banks and ground covering. Like the above in every respect except in the habit of growth. Excellent foliage shrub.			
✓ Carissa grandiflora Tuttlei (10)17 1/2	.45	1.75
Definitely superior as its rich green foliage is very compact and spreading. This variety originated at the Tuttle Bros. Nursery in Pasadena, California.			
Carissa grandiflora horizontalis (10)25	.75	-----
An improved low growing Carissa—especially compact and prostrate.			
CASSIA artemisioides. Feathery Cassia (9)17 1/2	.45	1.75
A grand, little shrub for dry, sunny places where the rounded form of feathery, silvery, grey foliage and bright yellow, fragrant flowers show to advantage. Will stand dry, almost desert conditions, with little water, and is equally useful in the coastal areas as well.			
Cassia splendida. Golden Wonder (9)	----	----	1.95
Through the entire winter, this interesting bush or small tree produces quantities of large golden yellow flowers in long racemes. Evergreen 6 to 8 ft. tall.			
CASUARINA stricta. Beefwood (8)15	----	-----
Tall growing evergreen tree, slender stems and whip-like branches. Long needles are attached like horsetails.			
CEANOTHUS gloriosus. Point Reyes Lilac, Prostrate			
Ceanothus (9)25	.60	1.75
A low growing, evergreen shrub with thick, leathery leaves producing bright, blue flowers in the spring. Highly desirable for ground cover.			
Ceanothus griseus horizontalis. Horizontal California Lilac (9)75	2.25	
A low, creeping variety. Its light green foliage is practically hidden by spikes of deep blue flowers in March and April.			
Ceanothus Mountain Haze. California Lilac (9)30	.75	2.25
This new hybrid is exceedingly versatile and capable of standing dry weather and poor soil conditions. Yet ordinary garden culture, with more water than the old species can stand, leaves this beauty dark green and healthy, winter and summer.			
This brilliant blue mass blends with the dark green foliage to produce the effect which gave the hybrid its name.			
This variety may also be pruned to a desired height and can be used as a hedge. Hybridized by Dr. Walter E. Lammerts. See picture. Page 27.			

	2¼" Pot	1-Gal.	5-Gal.
Ceanothus purpureus (9)75	2.25
Through late spring and summer this shrub displays unusually deep dark blue colored flowers. Especially prostrate with deep green leathery leaves. Very desirable.			
Ceanothus Sierra Blue. California Lilac (9)30	.75	2.25
The amazing thing about Sierra Blue is the size and brilliance of its blooms. Flower clusters actually become as large as those of the eastern lilac. The color is a sharp, bright blue, a most pleasing color. Hybridized by Dr. Walter E. Lammerts.			
CEDRUS—See Conifer Section			
CERATONIA siliqua. Carob, St. John's Bread Tree (8)17½	.45	1.85
An excellent, long lived, deep rooted evergreen tree of medium size. The round head of deep green foliage is always attractive. Makes dense shade; never becomes large. A fine street tree.			
CERATOSTIGMA larpentiae (C. Plumbaginoides).			
Dwarf Blue Plumbago (7)15	.40	-----
Low shrub or woody perennial making a creeping growth not over 6 or 8 inches. For semi-shade or sun where it covers itself with brilliant rich blue flowers in fall or late summer.			
Ceratostigma willmottianum. Dwarf Plumbago (7)17½	.45	1.65
Low-growing shrub with clusters of intensely blue flowers produced most of the year.			
CESTRUM PARQUI. Night Scented Jasmine (10)15	.40	1.65
By day just an ordinary, dense growing shrub with pleasant, light green foliage and insignificant, light yellow, tubular flowers but by night one of the most strikingly fragrant shrubs grown in this region.			
CHAMAECYPARIS—See Conifer Section			
CHAMAELAUCIUM ciliatum. Geraldton Wax Flower (10)20	.60	1.85
Medium to large evergreen shrub with graceful, arching branches covered with heather-like foliage and showy sprays of waxy, rose colored flowers. Foliage has distinct lemon scent.			
CHILOPSIS LINEARIS. Desert Willow (7)20	.50	-----
A graceful, somewhat weeping tree attaining a height of about 25 ft. Resembles a willow. Entirely covered in the summer with most beautiful trumpet flowers—lavender striped with yellow.			
CHOISYA ternata. Mexican Mock Orange (7)17½	.50	-----
A very fine, hardy evergreen shrub with glossy, green leaves of three leaflets each, and fragrant, white flowers in a showy cluster. Specimens densely globular. Sun or shade.			
B & B 15"	1.85		
CHORIZEMA varium. Flame Pea Shrub (9)15	.40	-----
Low growing, evergreen shrub with dark green, smooth edged leaves and showy sprays of pea shaped flowers in winter and spring. Flowers are bright orange-red and reddish purple. Sun.			
CISSUS antartica (Vitis antartica). (10)17½	.45	-----
Evergreen vine with tropical looking leaves reaching 4" length. Can be used for indoor or outdoor plantings.			
Cissus capensis (Vitis capensis). Evergreen Grape (10)20	.50	1.85
This tropical, evergreen vine is definitely picturesque with its luxuriant, deep green foliage. It grows fast, covering a large area. Creates the tropical effect needed in modern architecture.			

CEANOTHUS "MOUNTAIN HAZE"
SEE PAGE 25 FOR DESCRIPTION

	2 1/4" Pot	1-Gal.	5-Gal.
Cissus hypoglauca (Vitis hypoglauca) (10)17 1/2	.45	1.85
Fast growing, evergreen vine. Glossy leaves of 5 leaflets 4 inches long. Sharp-toothed.			
Cissus rhombifolia (Vitis rhombifolia). Evergreen Grape (10)15	.45	1.85
For a foliage vine this is hard to beat. Glossy, rich green leaves of 3 leaflets set close along the twining stems. Used often as a pot plant for indoor decoration or outdoors in either sun or shade. Easy to grow.			
Cissus voinieriana (Vitis voinieriana) (10)		1.50	2.50
One of the most exotic of evergreen vines. The large 5-fingered leaves are thick and glossy. A "must" for any tropical planting. Evergreen.			
3" pot75		
Cissus vomeriensis (Vitis vomeriensis) (10)		1.50	2.50
Very similar to Cissus voinieriana except the underside of the leaves and stems are densely covered with copper colored hairs which really enhance the vine and make it blend nicely with redwood.			
3" pot75		
CISTUS corbariensis (C. hybridis). White Rock Rose (8)15	.45	1.65
Small, free-flowering evergreen shrub. Soft ivory-white. Excellent for banks and windy location.			
Cistus Doris Hibberson. Pink Rock Rose (7)20	.60	1.85
Attractive, compact, evergreen shrub with delicate, clear pink flowers. Will withstand much abuse. Especially adapted for sunny, dry locations.			
Cistus ladaniferus maculatus. Brown Eyed Rock Rose (8)15	.45	1.65
Low, spreading evergreen shrub with deep green, narrow foliage and covered with large, white flowers. Each petal shows a prominent, deep brown spot at the base. For dry soil and sun.			
Cistus purpureus. Orchid Rock Rose (8)17 1/2	.45	1.65
Compact, evergreen shrub with neat habits of growth. Flowers are rose-purple, with yellow base and maroon spots.			
CITRUS aurantifolia Rangpur Lime (9)17 1/2	.50	1.85
A splendid combination fruiting ornamental. Beautiful, orange-red fruits that are tangerine shaped. Dwarf.			
Citrus calamondin (9)17 1/2	.50	1.85
Dwarf shrub with light green, small leaves, fragrant, white flowers followed by round, orange-red fruits 1 1/2 inches in diameter. Makes an excellent marmalade. Most resistant to cold of any citrus.			
Citrus Limonia Meyer Lemon. Dwarf Lemon (9)17 1/2	.50	1.85
Perhaps the finest ornamental shrub of the citrus family. Makes a rounded, medium size shrub with excellent foliage and fragrant lavender to white flowers. Produces lemons of table quality almost the year round.			
5-gal. Espaliered	4.50		
CLEMATIS montana rubens (Seedling) (6)20	.60	
This hardy strong growing deciduous vine with purplish toothed leaves bears clusters of rose pink flowers through late spring and summer.			
CLERODENDRUM bungei (C. foetidum). Kashmir Bouquet (9)17 1/2	.50	1.75
Dwarf, spreading evergreen shrub with fairly large, deep green, toothed leaves and fragrant clusters of rose red flowers 4 to 8 inches across in ball shaped heads.			
CLETHRA alnifolia Rosea. Sweet Pepperbush (4)60	
Shrub or small tree, having a refined appearance. The dainty, fragrant flowers of clear pink are produced on long panicles.			

	2 1/4" Pot	1-Gal.	5-Gal.
Clethra arborea. Lily of the Valley Tree (10)17½	.50	1.75
Large, evergreen shrub or small tree for partial shade. Leaves large, 4 inches long and deep green and leathery. Flowers in long panicles, each resembling Lily of the Valley.			
5-gal. Standard			1.95
CLIANTHUS puniceus. Parrot's Beak (10)20	.60	-----
Rare and attractive semi-climbing evergreen vine that bears brilliant crimson flowers that resemble lobster claws or parrots' beaks.			
CNEORUM tricocon. Spurge - Olive (8)20	.50	-----
A small shrub (3 to 4 ft.) producing deep yellow flowers and red berries. Evergreen.			
COCCULUS laurifolius (8)17½	.50	1.75
The glistening, green leaves which are heavily veined and its graceful, arching manner of growing make this hardy, evergreen shrub highly desirable.			
COIX lacryma jobi. Job's Tears (9)17½	.50	-----
A curiously animated grass that is desirable for modern architecture. The corn-like leaves and hanging clusters of pearly white seeds are very effective.			
CONVOLVULUS cneorum. Bush Morning Glory (8)17½	.45	-----
Dwarf compact evergreen shrub with soft silvery foliage. Masses of white morning glory flowers edged with pink make a beautiful display through late spring and summer. An excellent sun-loving shrub for pot, specimen or border planting. Drought resistant.			
Convolvulus mauritanicus (9)15	.40	-----
Trailing perennial making compact mounds of grey green foliage and covered from spring to fall with inch-wide lavender blue flowers. For rockeries, hanging baskets, porch boxes, or the perennial border.			
COPROSMA baueri. Mirror Plant, Looking Glass Plant (10)15	.40	1.65
A medium size shrub planted mostly for the extremely glossy deep green foliage. Adaptable to all but the coldest areas.			
CORREA pulchella (C. Speciosa) (9)20	.50	1.85
Compact shrub growing to a height of 2½ feet, but spreading considerably more with small, grey-green leaves and wide, flaring pink flowers resembling small bells. Plant in sun in a well-drained soil.			
CORTADERIA selloana (Cynerium argenteum). Pampas Grass (9) .15	.40	1.65	
This grass forms a mass of heavily serrated leaf blades. During the fall, the entire shrub is covered with large, handsome white plumes. Grows in most any soil. Especially suitable for warm, dry climates.			
CORYNOCARPUS laevigatus (9)	-----	.60	1.85
Evergreen shrub or small tree highly desired for its neat appearance—deep forest green leaves, which are glossy and thick.			
COTONEASTER apiculata. Cranberry Cotoneaster (4)20	.50	1.75
Horizontally spreading deciduous shrub with apple blossom pink spring flowers and red berries retained well into winter. Excellent for bank planting.			
Cotoneaster divaricata (5)15	.40	1.65
A hardy upright Cotoneaster—native of China. Few shrubs can equal its glorious autumn coloring. Red berries are retained well into winter. Deciduous.			
Cotoneaster glaucophylla. White-Leaved Cotoneaster (6)15	.50	-----
A semi-evergreen medium to large shrub with small gray-green leaves on graceful arching branches. White spring flower clusters and red winter berries. Excellent for specimen planting or as a sheared formal hedge.			

	2¼" Pot	1-Gal.	5-Gal.
Cotoneaster horizontalis (C. Davidiana). Rock Cotoneaster (5)15	.40	1.65
Low, spreading deciduous shrub with arching stems lined with small, round leaves. White flowers in spring are followed by bright red berries in fall and winter. In fall the leaves turn bright red. For the rock garden or as a bank cover in dry, sunny places.			
Cotoneaster pannosa. Silverleaf Cotoneaster (6)12	.40	1.65
Medium size evergreen shrub with small, silvery-grey leaves with lighter undersides. White flowers followed by bright red berries in fall and winter. Grows well anywhere from coast to desert areas.			
Cotoneaster parneyi. Red Clusterberry (7)12	.40	1.65
Large growing shrub with luxuriant deep green foliage the year around. Brilliant red berries.			
2-gal.	1.25		
CROTALARIA agatiflora. Canarybird Bush (10)20	.50	1.85
Large shrub, foliage light green and long arching branches lined with chartreuse flowers which resemble very closely canary birds. Sun.			
CUPRESSUS—See Conifer Section			
CYDONIA japonica (Chaenomeles). Flowering Quince (4)			
Small bushy deciduous shrubs with glossy dark green foliage. Masses of "one inch" apple blossom-like flowers completely clothe the branches in winter and early spring.			
Cydonia japonica rosea. Pink Flowering Quince17½	.45	1.65
Cydonia japonica rubra. Red Flowering Quince17½	.45	1.65
Cydonia japonica scarlet. Scarlet Flowering Quince17½	.45	1.65
CYPERUS papyrus. Egyptian Paper Reed (9)17½	.45	1.75
The stems are headed with feathery foliage that resembles miniature palm trees. The leaves are blade-like and dark green. Prefers abundance of moisture.			
DAIS cotinifolia (9)			2.25
Small deciduous tree that produces beautiful fragrant pink flowers in the summer.			
DAPHNE odora marginata (8)95	3.00
A very attractive, slow growing, compact shrub, that has glossy leaves edged with ivory, and the most sweetly fragrant flowers of waxy pink fading to white.			
DIOSMA pulchrum (Coleonema pulchrum). Pink Breath of Heaven (9)15	.40	1.65
Compact 2½ to 3 ft. rounded evergreen shrub with heather-like, light green foliage covered in late winter and early spring with quantities of tiny, star-shaped, pink flowers.			
Diosma reevesi. White Breath of Heaven (10)15	.40	1.65
Like the Pink Breath of Heaven with dark green foliage and star-shaped white flowers in spring. Not quite as hardy as the Pink Diosma.			
DISTICTIS lactiflora (D. Cinera). Vanilla-scented Trumpet Vine (10)20	.50	1.95
Excellent vine for milder regions. The trumpet-shaped flowers of rich purple cover this vine most of the year. It also has a delightful vanilla fragrance.			
3" pot30		
Distictis Rivers. Royal Trumpet Vine (Plant Pat. No. 554) (10)85	2.60
A most attractive trumpet vine having flowers with rich purple petals on a brilliant yellow tube. The leaves are large and glossy; the flowers are sweetly fragrant.			
3" pot45		

	2 1/4" Pot	1-Gal.	5-Gal.
DRACAENA indivisa (Cordyline indivisa). Dracaena Palm (9)15	.40	1.65
Small tree of the lily family with leaves like yucca, long narrow sword-shaped and plumes of creamy white flowers when blooming. Used for desert or tropical effects.			
Dracaena indivisa. Bronze (9)17 1/2	.45	-----
Very similar to Dracaena indivisa except the leaves and stems have a bronze tint.			
DURANTA stenostachya. Brazil Skyflower (10)15	.40	1.65
Medium to large shrub with arching branches covered with an attractive light green, glossy foliage and racemes of light blue flowers all summer. Sun or partial shade.			
ELAEAGNUS philippensis (8)25	.60	1.85
A graceful, silver-leaved plant of medium size suitable for either specimen or foundation use. The flowers are not spectacular, but are followed by attractive, bright red fruit. Evergreen.			
Elaeagnus pungens. Silverberry (6)15	.40	1.75
A large spreading shrub that has its stems and leaves covered with frosty shiny scales. The large silver-bronze berries also have a frost-like tint.			
ENTELEA arborescens (9)20	---	-----
A large leaved evergreen shrub or small tree bearing clusters of white flowers "one inch" in size.			
ERICA codonodes alba (E. lusitanica). White Heather (9)17 1/2	.50	1.75
An upright heather covered with lavish sprays of white bell-shaped flowers in early spring. One of the hardiest heathers.			
Erica cruenta. Dwarf Scarlet Heather (9)17 1/2	.50	1.75
Distinctive, blood-red, tubular flowers produced on long spikes during fall and winter.			
Erica John McLaren. Pink Heather (9)17 1/2	.50	1.75
Of the same type as hieliana but flowers are a lovely shade of pink. Low, compact shrub. Blooms twice a year.			
Erica Mediterranea Hybrid (8)17 1/2	.50	1.75
Rose-lavender, bell-shaped flowers that bloom in winter and early spring are borne profusely along the branches.			
Erica melanthera rosea. Pink Scotch Heather (9)17 1/2	.50	1.75
Medium to tall evergreen shrub with fine, billowy masses of tiny leaves and equally numerous rosy-pink flowers with black "eyes". Hardy. Plant in sun and well drained soil. Most popular heather.			
Erica melanthera rubra. Red Scotch Heather (9)17 1/2	.50	1.75
Deep, rose-red flowers that bloom from October to February. Plant in sun and well drained soil. A very choice shrub.			
Erica vagans. Mrs. D. F. Maxwell (8)17 1/2	.50	1.75
The mild, green, feathery foliage is enhanced by cone-like spikes of bright, tubular, rose-red flowers that appear in early spring. Upright, medium sized shrub. New and promising.			
Erica ventricosa (9)17 1/2	.50	-----
Much desired for its beautiful deep pink compact spikes of flowers in the early summer.			
✓ ERIOBOTRYA japonica. Loquat (9)15	.40	1.75
Small to medium size tree with large, dark green leaves making dense shade and pear-shaped yellow, edible fruits. A good subject for espalier work (seedlings).			
✓ Eriobotrya japonica. Gold Nugget (9)	---	---	2.50
Grafted plants that insure lush heavy leaves and most important, large golden edible fruit. Evergreen.			

HARDINESS MAP

From this map determine what zone you are in. The number listed beside each variety in this catalog indicates the zone in which that variety will be hardy. If the variety carries your zone number or a smaller number it should be hardy in your area. If you want to take a chance on those rated one zone greater, there is a good possibility of success.

	2 1/4" Pot	1-Gal.	5-Gal.
ERYTHRINA bidwilli (10)75	2.25
A hybridized Erythrina resulting in exotic, red, bird-like flowers that bloom in the summer. The plant itself is very fascinating.			
Erythrina crista-galli. Coral Tree (10)17 1/2	.50	-----
Long spikes of pear-shaped brilliant red flowers appear all summer and fall on this semi-deciduous large shrub or small tree. Excellent as a specimen or for background planting.			
ESCALLONIA. C. F. Ball (7)15	.40	1.65
An evergreen shrub with glossy, green leaves, bearing bright red flowers. A hardy shrub.			
Escallonia montevidensis (8)15	.40	1.65
Medium to large, evergreen shrub with excellent, light green foliage and masses of single, white flowers in showy heads in summer. Very reliable shrub for landscape planting. Sun.			
Escallonia organensis (8)15	.40	1.65
Regarded as one of the best of this fine family of evergreen shrubs. Medium size, very bushy and well clothed with narrow, bronzy green leaves and clusters of appleblossom-like flowers white and pink. Very free blooming.			
Escallonia rubra. Red Escallonia (8)15	.40	1.65
Medium to large, evergreen shrub with deep green, glossy foliage and clusters of bright red, tubular flowers with spreading petals. Makes an excellent specimen plant. Prefers shade.			
EUCALYPTUS caesia (9)75	2.25
A slender evergreen tree obtaining a height of 15 feet. Its weeping branches continually bear rose-pink flowers which contrast well with its silvery-gray foliage and white branches.			
Eucalyptus citriodora. Lemon Scented Gum (10)15	.45	1.85
Tall, strong growing evergreen tree with picturesque smooth trunks with peeling bark, long, pointed, lemon scented leaves and white flowers. Widely planted and characteristic of California landscapes.			
Eucalyptus ficifolia. Scarlet Flowering Gum (10)15	.45	1.85
Small to medium sized evergreen tree, much used for street planting and as a specimen for the showy masses of bright red flowers. The leaves are dark green, pointed and leathery. We do our utmost to secure seeds from plants having the brightest red flowers, but variations will appear due to cross pollinization.			
Eucalyptus globulus. Blue Gum (9)40	1.65
Tall growing tree much used for windbreaks, etc. New foliage is bright blue green; mature leaves deep green. Evergreen.			
Eucalyptus globulus compacta. Bushy Blue Gum (9)15	.40	1.65
Dwarf, compact growing evergreen tree producing dense, blue-green masses of foliage. Used for background planting and windbrakes.			
Flats	4.00		
Eucalyptus polyanthemos. Redbox Gum (8)15	.40	-----
A tall growing, open headed tree having handsome greyish-blue, leaves. Resistant to much frost and drought. The foliage is especially valuable for decorative purposes. Evergreen.			
Eucalyptus pulverulenta. Silver Dollar Tree (8)15	.45	1.85
Small tree with bluish foliage. Contrasts very well in any ornamental planting. Excellent for cutting and floral makeup.			
Eucalyptus rostrata. Red Gum (8)15	.40	1.85
A rapid grower with long narrow leaves. This tree endures much heat and drought. Evergreen.			

	2¼" Pot	1-Gal.	5-Gal.
Eucalyptus rudis. Desert Gum (8)15	.40	1.85
Tall growing tree suitable for desert areas.			
Eucalyptus sideroxylon rosea. Pink Ironbark (9)15	.40	1.85
Medium size tree with brownish red, rough bark and long, pointed, dark green leaves. Flowers in large clusters, pink. Profuse blooming.			
Eucalyptus viminalis. White Gum (8)15	.40	1.85
A fast growing evergreen tree that sheds its bark leaving a smooth, white trunk. Has a widespreading crown with long, narrow-leaved branchlets.			
EUGENIA Armstrong (Pat. No. 1037) (9)75	2.35
A compact evergreen shrub with glossy leaves, suitable for colder climates. Will fit many garden spots unsuited for the older and larger growing <i>Eugenia myrtifolia</i> . Requires very little pruning. Introduced by Armstrong Nurseries.			
3" pot50		
Eugenia edulis—see Myrciaria edulis			
Eugenia myrtifolia (E. Paniculata Australis). Brush Cherry (10) ..	.15	.40	1.85
Close growing, evergreen shrub or small tree much used in landscape planting for clipped hedges or as tall clipped pyramids for accent. Leaves dark, bronzy green, new growth red; flowers fluffy, white followed by red berries.			
Flats	4.00		
EUONYMUS (5)			
Hardy, evergreen medium size shrubs with rounded glossy leaves widely used for hedges or specimen planting. Excellent for shearing.			
Euonymus japonicus. Green Euonymus (5)15	.40	1.65
Solid green leaves. Compact growth.			
Euonymus japonicus aureo-marginatus. Golden Euonymus (5) ..	.15	.40	1.65
Leaves dark green with bright gold margin.			
Euonymus japonicus aureo-variegatus.			
Golden Variegated Euonymus. Gold Spot (5)15	.40	1.65
Compact. Leaves bright gold with dark green margin.			
Euonymus japonicus grandifolia (5)15	.40	1.65
Very large solid green leaves.			
Euonymus japonicus microphyllus (E. pulchellus) (5) ..	.15	.40	1.65
Very dwarf. Suitable for small hedges. Solid green leaves.			
Euonymus japonicus. Silver Queen (5)15	.40	1.65
Large light green foliage with a silver margin. Medium size.			
Euonymus patens. Newport (7)15		
Compact and shapely, foliage remains on the plant practically all year.			
Euonymus radicans upright (7)15	.40	
Very similar to <i>Euonymus radicans</i> except the growth habit is semi-upright. Has the ability to retain its foliage most of the year. In the fall the leaves become a deep red.			
EXOCHORDA racemosa. Pearl Bush (6)17½	.50	
A deciduous shrub to 10 ft. The foliage is a clean, bright, green. Flower buds resemble pearls and open to large single white flowers.			

2 1/4" Pot 1-Gal. 5-Gal.

FATSHEDERA Lizei. Botanical Wonder (8)17 1/2 .50 -----

A bigeneric hybrid between Fatsia (Aralia) and Hedera. Semi-climbing and large, glossy evergreen leaves similar to heder. Makes a good subject for espalier on walls in shade or partial shade.

5-gal. Espalier **3.50** **5-gal. 1 Stake** **1.75**

5-gal. 2 Stakes **2.25**

FEIJOA Pineapple Gem (8) ----- **2.50**

A grafted Pineapple Guava that is unsurpassable in fruit, flower and foliage. The fruit is larger, more colorful and more juicy and with a definite pineapple flavor. Its silvery-green foliage and large, red flowers in spring make it a showy specimen.

Feijoa sellowiana. Pineapple Guava (8)15 .40 **1.65**

Fast growing, tall, evergreen shrub with grey-green foliage and waxy, white flowers with bright red central cluster of stamens. Fruits pale green, edible.

2-gal. **1.25**

FICUS benghalensis. Banyan Tree (10)25 .75 **2.25**

This native of India serves well as a shade tree in subtropical work because of its large, interesting leaves. It has round, red fruit which is borne in pairs. One of the most interesting features of this tree is the way it develops new trunks from aerial roots.

Ficus nitida. Indian Laurel (10)17 1/2 .50 -----

Very refined plant having thick, rubbery leaves. Fine for patios, parkways.

5-gal. standard **3.50** **5-gal. pyramids 5'** **2.25**

5-gal. pyramids 3' **1.75**

Ficus religiosa. Bo Tree (9)25 .75 **2.25**

The sacred tree of India. Of slow growth, but makes an excellent small tree for yard planting. Noted for its poplar-like leaves which have long tail-like appendages.

Ficus repens (F. pumilla). Creeping Fig (9)15 .40 -----

Close growing, clinging, evergreen vine. Leaves rounded, about 1 inch long. For sun or partial shade.

FORSYTHIA Dwarf Arnold (4)20 .50 -----

Beautiful, golden yellow flowers fill the suspending branches in early spring. Very desirable because it is more dwarf than other varieties.

Forsythia Spring Glory (4)15 .40 **1.65**

Undoubtedly, the loveliest of all. During the early spring, the brilliant yellow flowers completely cover the branches and wherever planted, will definitely be attractive and colorful. A vigorous, sturdy grower that needs little care.

FRAXINUS Uhdei. Shamel Ash (9)15 .45 **1.85**

Medium size, slender, evergreen tree excellent for street planting or as a shade tree because of its clean habit. Leaves long, glossy green. Introduced from Mexico.

FREMONTIA mexicana. San Diego Fremontia (9)25 .75 -----

A large, native shrub with gray-green foliage. During the winter season it is covered with large glistening orange-yellow flowers.

GARDENIA Mystery (9)17 1/2 .50 **1.85**

The demand is continually on the increase for this truly, superior evergreen shrub. Glossy, green leaves, bushy and compact, it produces large creamy-white fragrant flowers during spring and summer. Prefers the sun and slightly acid soil.

2 1/4" Pot 1-Gal. 5-Gal.

Gardenia veitchi. Everblooming Gardenia (9) **.17 1/2 .50 1.85**

Smaller than Mystery in bush, leaf and flower size, but even longer blooming. Lustrous, evergreen foliage and low compact growth habit make this a splendid specimen for tub or garden culture. Prefers acid soil in sun or partial shade.

GELSEMIUM sempervirens. Carolina Jessamine (7) **.17 1/2 .45 1.85**

Evergreen, twining vine. Foliage luxuriant, light green. Flowers trumpet shaped, yellow and fragrant, making quite a show in late winter. Excellent ground cover.

GENISTA racemosa (Cytisus racemosus). Sweet Broom (8) **.15 .40 1.65**

Popular, compact evergreen shrub doing equally well along the coast or inland. Its golden flowers add considerable color in late spring. An improvement over Genista fragrans—more compact.

GINKGO biloba — see conifer section

GREVILLEA robusta. Silk Oak (9) **.15 .45 1.85**

Tall tree making a narrow, columnar head of fern-like, dark green leaves and candelabras of bright, orange-yellow flowers in spring. This is the tree shown on Chinese pottery. Evergreen.

GREWIA caffra Improved. Lavender Star Plant (10) **.20 .50 -----**

Fast growing, natural espalier plant with light green foliage. Lavender, star-shaped flowers with yellow centers are in bloom a great part of the year.

5-gal. Espalier 4.50 5-gal. Staked 1.85

✓ **GUAVA Red Strawberry (Psidium cattleianum) (10)** **.15 .40 1.65**

Medium size, evergreen shrub bearing clusters of small, round, dark red fruits. Used in making jellies.

✓ **Guava Yellow Strawberry Improved (10)** **.15 .40 1.65**

This large, glossy-leaved, evergreen shrub is not only important for its beauty as an ornamental, but is in great demand for its edible, strawberry-flavored fruit. The bush is compact and the large, glossy leaves give it that "tropical look".

HALESIA tetraptera. Snowdrop Tree (5) **.20 .50 -----**

A small deciduous tree, popular for the thousands of small, white bell-shaped flowers which dangle about below the branches in the spring. Always a subject of interest and curiosity.

HARDENBERGIA comptoniana. Vine-Lilac (10) **.20 .50 1.85**

A fast growing vine having slender, lacy leaves with deep blue flowers.

HEDERA canariensis (H. Maderensis). Algerian Ivy (9) **.15 .45 1.85**

Particularly adapted to warm climates. Dark green, unusually large, leathery leaves make this evergreen vine most desirable. Used to cover masonry or as a ground cover in partially shaded places.

Hedera canariensis variegated (Variegated Algerian Ivy) (9)..... **.15 .45 1.85**

Like the Hedera canariensis, but its leaves are a creamy-white and green, beautifully variegated. An especially vigorous evergreen vine.

Hedera hahni. Hahn's Ivy (9) **.15 ----- -----**

This compact growing ivy finds much use in planter boxes because of its somewhat restricted growth habit. It may be used as a bed edging or ground cover in patio work where its dark green foliage creates a restful effect.

3" pot .30

Hedera helix arborescens (6) **.20 .50 1.85**

A broad leaved evergreen, with every appearance of ivy in bush form, but often having the ivy-like leaves twisted and contorted in an interesting manner.

	2¼" Pot	1-Gal.	5-Gal.
Hedera helix. English Ivy (4)15	.45	1.85
Dark green, leathery leaves, but smaller than the Hedera canariensis. It is not only used as a vine and a ground cover, but may be clipped as a low, formal hedge on a support.			
Hedera helix conglomerata. Dwarf Ivy (8)20	.75	-----
Small, slow-growing vine; leaves are deep green and slightly twisted; excellent for makeups.			
HELIANTHEMUM lasianthum (Halimium lasianthum).			
Sun Rose (7)15	.40	-----
Small, evergreen shrub very suitable for semi-arid regions, can be used for border plantings or ground cover. The foliage is a gray-green; the flowers are yellow blotched with a purple base. Blooms most of year.			
Helichrysum petiolatum (9)25	.60	1.85
Low growing, semi-trailing, very unusual looking shrub. Leaves appear to have been slightly covered with a light snow. Evergreen. Excellent for accent and contrasts.			
HELIOTROPIUM Black Beauty (Heliotropium arborescens) (10)15	.40	1.65
Highly fragrant, deep purple flowers. Plant has unusually dark green foliage.			
HIBBERTIA volubilis. Gold Guinea Vine (10)17½	.45	1.85
A rich, luxuriant, semi-tropical evergreen vine. Large, gold-colored, single flowers create a fascinating contrast against the deep green leaves. One of the most popular vines.			
HOLMSKIOLDIA sanguinea. Chinese Hat Plant (9)20	.50	1.75
The beautiful, long clusters of bright red-flower bracts are produced most of the year. Often used for Christmas decorations. Can be trained to grow flat against walls. Prefers plenty of sunshine and water.			
HOYA carnosa. Wax Vine (9)25	.75	-----
A tropical climber with perfect, waxy-white flowers with pink centers. Its thick, succulent-looking leaves require shade and much moisture.			

HIBISCUS (10)

Modern home and landscape design more and more stresses tropical effects, and none can be complete without one or several Hibiscus—so your demand for these exotic beauties is bound to keep soaring! MN's Hibiscus are especially grown for the sturdy root systems that mean added vigor and top quality—sure sellers for your nursery. MN produces every favored variety and color.

Agnes Gault.17½	.45	1.65
The enormous, velvety, shrimp-pink, single flowers are the largest and showiest of all pink hibiscus. A vigorous growing, free-blooming shrub.			
5-gal. Standard	2.25		
American Beauty.25	.60	1.75
Large single bright pink flowers of varying intensity—lighter shades toward the edges. Petals overlap somewhat. Excellent foliage. See picture.			
Brilliant (San Diego Red).17½	.45	1.65
Really an old favorite. Its vivid, crimson-red, single flowers are produced profusely most of the year. Its attractive, deep green foliage makes a good hedge.			
5-gal. Standard	2.25		
Butterfly (California)45	1.65
Large, single yellow flowers with bright green foliage. A very heavy bloomer.			
5-gal. Standard	2.25		

HIBISCUS KATE SESSIONS
FOR DESCRIPTION SEE PAGE 40

	2¼" Pot	1-Gal.	5-Gal.
California Gold.25	.60	1.75
A rich, single, gold color shading into carmine-orange toward the center. A good grower and profuse bloomer.			
5-gal. Standard	2.25		
Crown of Bohemia.25	.60	1.75
The most popular of all hibiscus. It combines all the colors of autumn in the large, double flowers which are produced most of the year. Rich golden base tones with blends of copper and orange. The foliage is very beautiful.			
Kamapuaa.17½	.45	1.65
Large, single, yellow-cerise flowers overlaid with coral and amber and edged with gold. Foliage is especially large and attractive.			
Kate Sessions17½	.45	1.65
One of the largest singles. Velvety, amber-pink flowers with large overlapping petals. See picture. Page 39.			
5-gal. Standard	2.25		
Kauai.17½	.45	1.65
A large, windmill type, single, rose pink. This hibiscus produces unusually good flowers during the winter season. A strong, rapid grower.			
Kona (Double Agnes Gault).17½	.45	1.65
This is such a favorite, being the double counterpart of Agnes Gault, in the same delightful shade. Fully double in a graceful manner and more free blooming than most doubles. Splendid foliage.			
Mme. Chiang Kai-shek.17½	.45	1.65
A beautiful, double, blush ivory-pink with yellow undertones. One of the hardiest.			
5-gal. Standard	2.25		
Mrs. Lowery.25	.60	1.75
Large, single, ruffled, apricot flowers shading into tones of cerise toward the center.			
Paradise Moon.		1.00	2.50
Attractive and unusual, bright yellow, single flowers having snow white centers. This hibiscus is a compact grower.			
Purity.17½	.45	1.65
Large, pure white, fragrant single flowers. Petals not overlapping, but yet very full. A compact and vigorous grower.			
Red Monarch.25	.60	1.75
Huge, double rosette shaped flowers of a deep crimson.			
Royal Red.25	.60	1.75
Flowers are large, double, scarlet shaded crimson. Good foliage.			
Ruby Red.17½	.45	1.65
Beautiful, double, bright red flowers. Very profuse bloomer. One of the most hardy hibiscus. Leaves are a bright, glistening green.			
Sensation.25	.60	1.75
The large, single flowers are difficult to describe—so many beautiful colors all blended in one—apricot, gold, and rust. Truly a sensation. A compact, rapid growing shrub that requires little care.			
5-gal. Standard	2.25		
The Bride.25	.60	1.75
One of the most popular of the hibiscus. Large, single, crepe-like textured, somewhat overlapping petals. The color of the flower is very unusual in that it opens a blush pink, but within a few hours it takes on a frosty white. The plant is a vigorous grower.			

	2 1/4" Pot	1-Gal.	5-Gal.
The President.17 1/2	.45	1.65
Large single rich red flowers. The foliage is unusually attractive and endures winter better than most varieties. Vigorous.			
Waimea.17 1/2	.45	1.65
A fragrant hibiscus—white and single with slightly carmine tinted throat. Almost tulip-shaped in form. A bushy, compact grower.			
White Wings.17 1/2	.45	1.65
Large windmill type single flowers with white petals and carmine throat. Quite hardy and free blooming. Unusually fine foliage with spreading graceful habit.			
5-gal. Standard		2.25	

HYDRANGEAS (9)

MN's fine French hybrids are sure "sell-on-sight" items in the spring when the huge shiny apple-green leaves are almost hidden under gigantic pompons of brilliant bloom. Be sure to stock the full range of colors for extra quantity sales.

Amy Pasquaar.17 1/2	.45	1.65
Outstanding for its deep rose colored flowers produced in great clusters. A dwarf grower.			
Hamburg.17 1/2	.45	1.65
Very striking scarlet colored flowers produced in large clusters in early spring. This will blue easily.			
Hortensis (H. macrophylla).17 1/2	.45	1.65
Bushy shrub bearing large clusters of delicate pink flowers. This variety attains greater height and takes more sun than the French Hybrids.			
Merritt's Beauty.17 1/2	.45	1.65
An attractive, carmine red. Very desirable habit of growth.			
Revelation.17 1/2	.45	1.65
This hydrangea is a bright red. Compact dwarf habit of growth. Always in demand.			
Trophee.17 1/2	.45	1.65
Large heads of brilliant, salmon rose flowers. One of the most popular. Dwarf, compact habit of growth.			
White.17 1/2	.45	1.65
Giant clusters of pure white flowers.			

HYPERICUM calycinum (7)15	.40
A low growing, bushy plant, bearing large, yellow flowers from May through October. Valuable as a ground cover.			
Hypericum moserianum (7)15	.40	1:65
Low growing, rounded shrub with arching branches clothed in narrow, dark green leaves. Flowers bright golden yellow, 1 to 1 1/2 inches across, clusters of brown stamens in the center. Plant in full sun.			
Hypericum patulum henryi. Goldflower (7)15	.40	1.65
Low, bushy shrub to 3 feet with light green foliage. Almost ever-blooming, it produces masses of bright light yellow flowers 1 to 1 1/2 inches across. Yellow stamens. Stands poor dry soil very well. Sun.			
Hypericum Sungold (U.S. Plant Patent No. 568) (6)35	.75	1.95
A shapely, dwarf shrub which grows into an almost completely oval globe of about 3 feet in diameter. It bears its cymes of golden flowers at the end of every shoot of the summer's new growth.			

	2 1/4" Pot	1-Gal.	5-Gal.
ILEX aquifolium (seedling). English Holly (7)17 1/2	.50	-----
This evergreen shrub is extremely valued for its unusual foliage and berries.			
Ilex aquifolium fertilis (7)75	2.50
An outstanding English Holly, superior because of its self-fertility. Very desirable.			
Ilex cornuta. Chinese Holly (7)20	.60	1.95
One of the best hollies for California. Hardy, medium to large shrub with deep green, glossy leaves like the Christmas holly. Berries large, bright red. Sun or part shade.			
3"35		
Ilex cornuta (seedling) (7)17 1/2	.50	1.95
Although it has the usual glossy, holly foliage, it grows more compact and faster than Ilex cornuta from cuttings. Very desirable.			
Ilex cornuta burfordi. Burford Holly (7)17 1/2	.50	1.95
The most prolific bearer of large bright red berries in the Southwest. Leaves deep, glossy green almost without spines.			
3" pot30	2-gal.	1.50
Ilex cornuta rotunda (7)20	.50	1.95
A very superior compact Holly. Its naturally dense habit of growth lends itself to those small, shady areas that often become so rank with growth. Bears brilliant red berries in profusion during the holiday season.			
ITEA ilicifolia. Holly-leaf Sweetspire (8)17 1/2	.45	1.65
Attractive evergreen shrub attaining a height of 3-5 feet. Its holly-like leaves are a deep shining green. The glistening flowers hang pendantly in clusters.			
JACARANDA mimosaeifolia. Jacaranda (10)17 1/2	.45	1.85
Medium size tree with large, fern-like light green leaves and clusters of bignonia-like lavender blue flowers in June. Widely planted as a street tree.			
JACOBINIA carnea (10)20	.50	-----
A small, compact plant which is very tropical appearing, having large leaves and distinctive, rose-red flowers borne on long spikes. Excellent for planters and window boxes.			
JASMINUM grandiflorum. Spanish Jasmine (9)17 1/2	.45	1.65
Hardy, slender growing, twining vine with deep green foliage and fragrant white flowers. Makes a quick growth and useful for covering fences, etc.			
5-gal. Staked	1.85		
Jasminum ligustrifolium (Jasminum rigidum) (10)17 1/2	.50	1.85
It is dissimilar to other jasmines in its erect, almost stiff habit of growth. Leaves are of good size and are leathery. The flowers are fragrant and white. Evergreen.			
Jasminum magnificum. Angel Wing Jasmine (10)20	.50	1.85
Large, fragrant, white, wind-mill-like flowers. The leaves are large and heavy, making the plant desirable in every way. Although a semi-vine, these are grown as bushes.			
Jasminum primulinum (Jasminum mesnyi). Primrose Jasmine (9)15	.40	1.85
Strong growing vine for coast or interior sections. Winter blooming. Rich green stems and leaves and bright, light yellow double flowers. Sometimes allowed to make a large shrub. Evergreen.			
Jasminum revolutum. Italian Jasmine (8)15	.45	1.85
Semi-climber used either as a shrub or vine. Fragrant, yellow flowers. One of the hardiest jasmines. Evergreen.			

	2¼" Pot	1-Gal.	5-Gal.
Jasminum sambac Maid of Orleans (10)25	.75	2.25
A variety of Arabian Jasminum which produces a quantity of blossoms that are double and creamy-white. Exquisite jasminum fragrance. Evergreen.			
3" pot40		
JUNIPERUS—See Conifer Section, page 3.			
LAGERSTROEMIA indica Dwarf Lavender (7)20	.45	1.65
Especially beautiful, light lavender flowers. Much desired as it does not grow too large. Provides a quantity of color in late summer.			
Lagerstroemia indica rosea. Pink Crape Myrtle (7)17½	.45	1.65
Large specimen shrub or small tree; hardy and deciduous. Becomes a mass of crepe-texture, rose pink flowers in summer.			
5-gal. Standard	1.95		
Lagerstroemia indica rubra. Red Crape Myrtle (7)17½	.45	1.65
Vigorous, upright growth. Hardy and deciduous. Rose-red flowers. Makes the finest tree type crape myrtle.			
5-gal. Standard	1.95		
Lagerstroemia indica Watermelon Red (7)20	.50	1.75
Never surpassed for summer and fall color. Vigorous shrub that becomes a mass of crinkly, bright red flower clusters. Can be grown as a small tree or shrub. Deciduous.			
5-gal. Standard	2.25		
Lagerstroemia indica White (7)20	.50	1.75
Large, snow white flowers—unusually ruffled and set in dense panicles along the branches. Very showy. Deciduous.			
5-gal. Standard	2.25		
Lagerstroemia indica William Toovey (7)20	.50	1.75
One of the finest of all the crape myrtles. Neat, compact habit, producing a solid mass of beautiful deep watermelon red flowers in large heads. Very prolific and spectacular.			
LAGUNARIA pattersoni (9)17½	.45	
This small, shapely evergreen tree with its dark, olive-green foliage produces an abundance of pale pink, fleshy flowers during May and June. Desired as a street tree or for yard planting.			

LANTANA callowiana Goldrush (Plant Pat. No. 1211) (9)

Trailing yellow — an entirely new species produced from the hybridization of Lantana camara and Lantana sellowiana, retaining only the finer characteristics of each. Many times in the last century horticulturists have attempted to cross these different Lantana species, but were unsuccessful. The possibility of producing a completely new species was considered a rare coincidence. All who have seen it are amazed and delighted, and believe it to be the finest of all Lantanas. Practically all year countless clusters of the brightest yellow flowers cover the entire plant. The foliage, an attractive deep forest green, makes a most pleasing color contrast with the bright yellow flowers. One of the most outstanding characteristics is its trailing habit of growth, which means it can be used in so many ways, such as ground covers, bank covers, planters, etc. This attractive, prostrate shrub, Goldrush, grows rapidly and requires very little care. Must always be sold with patent tags. See back cover for picture.

2¼" pots **.30** **3" pots** **.45** **1-gal.** **.60**

Lantana camara (9)

Exceptionally dwarf and compact, these evergreen Hawaiian shrubs produce a mass of color the year around. Easy to grow.

Lantana Dwarf Pink. **.12** **.35**
Bright Pink Flowers.

Lantana Dwarf White. **.12** **.35**
Velvety White Flowers

	2¼" Pot	1-Gal.	5-Gal.
Lantana Dwarf Yellow Bright Indian Yellow Flowers.	.12	.35	-----
Lantana Radiation Rich Orange-red Flowers.	.12	.35	-----
Lantana Christine Orange-pink Flowers.	.15	.40	-----
Lantana sellowiana. Trailing Lantana (9) Low, spreading shrub quite different from the above lantanas. Makes a dense mass of deep green foliage covered most of the year with clusters of lavender-pink flowers. Fine as a bank and ground cover plant.	.12	.35	-----
LAURUS nobilis. Sweet Bay (9) A slow growing, evergreen shrub with ornate, green, leathery leaves. This shrub can withstand a great deal of abuse. It is desirable as a tub specimen.	.20	---	-----
LAVANDULA vera. English Lavender (8) Dwarf, compact, shrubby perennial with silvery-grey foliage and fragrant, lavender flowers. Both foliage and flowers are scented with lavender. For sunny places.	.17½	.45	-----
LEPTOSPERMUM citriodora. (9) Evergreen shrub of refined growing habits. Foliage has pleasing citrus fragrance. Flowers are single white.	.20	---	-----
Leptospermum laevigatum. Australian Tea Tree (9) Tall growing, evergreen shrub or small tree with very small, rich green, narrow leaves and sprays of pure white flowers in spring. Requires little water.	.15	.40	1.65
Leptospermum reevesi. Dwarf Australian Tea Tree (9) Compact, evergreen shrub with small oval leaves and white flowers.	.17½	.45	-----
Leptospermum scoparium. Ruby Glow (9) A mass of oxblood red flowers resembling small roses. One of the most colorful of the variety. Good, evergreen shrub with dark purple stems and semi-glossy leaves. Excellent for cut flowers.	.17½	.50	1.75
Leptospermum scoparium Sanders (9) Very colorful, single flowers of red and pink.	.17½	.50	1.75

Special Package Offers
AZALEAS—PAGE 7
CAMELLIAS—PAGE 12
ORNAMENTALS—PAGE 19

Leptospermum scoparium. Scarlet Carnival (9) Double, red flowers that surround the stems create a blaze of color in early spring. This evergreen shrub will always provoke interested comments.	.17½	.50	-----
LEUCOPHYLLUM frutescens texanum. Texas Sage, Ceniza, Senisa (8) The silvery-gray foliage of this drought resistant shrub contrasts nicely with other shrubs. Produces an orchid-pink, snapdragon-like bloom.	.20	.50	1.75
LIBOCEDRUS decurrens—See Conifer Section			

	2 1/4" Pot	1-Gal.	5-Gal.
LIGUSTRUM japonicum. Japanese Privet (8)40	1.65
Large leaved, fast growing evergreen shrub. Recommended as a tall or medium hedge plant.			
5-gal. Standard 5-ft.	2.50	Flats	4.00
Ligustrum ovalifolium variegatum. Golden California Privet (5)15	.40	1.65
Easily grown, evergreen shrub with small, closely set, golden-yellow leaves. Much used for hedges or as clipped specimens. Rapid growth.			
Ligustrum texanum. Wax Leafed Ligustrum (8)15	.40	1.65
Makes an excellent specimen evergreen shrub or a closely set, deep green hedge. Leaves thick textured, dark and glossy, stands shearing very well.			
2-gallon	1.25	5-gallon Globes	2.25
5-gallon Pyramids 2'	2.25	5-gallon Standards	2.75
5-gallon Pyramids 5'	3.50	5-gallon Espalier Palmetto	3.50
LIPPIA citriodora. Lemon Verbena (9)15	.40	1.65
Medium size, deciduous shrub with light green, aromatic foliage and loose panicles of tiny white to pale lavender flowers. Entire plant has lemon scent when touched or bruised.			
LIQUIDAMBAR styraciflua. Sweet Gum (5)15	.40	1.85
Tall deciduous tree with a pyramidal head of maple-shaped leaves of deep rich green, but assuming very brilliant shades of crimson and bronze in fall. One of the few trees with bright autumn coloration for California.			
LILAC. See syringa or ceanothus.			
LIRIODENDRON tulipifera. Tulip Tree (5)17 1/2	.50	1.85
In the spring tulip-shaped flowers of yellow-orange form a vivid contrast against the bluish-green foliage. The large leaves develop an autumn color in the fall. Deciduous.			
Bareroot seedlings08 each		
LIRIOPE spicata (Liriope graminifolia) (9)17 1/2	.50	
A good, grasslike subject that may be used either as a ground cover or in a dish garden. It has a well-defined and interesting habit of growth. The flowers are light lilac to almost white followed by distinctive black fruit.			
LONICERA heckrottii Improved. Coral Honeysuckle (5)17 1/2	.50	1.85
Climbing, twining vine with 2-inch oval leaves and brilliantly colored honeysuckle flowers of coral-red and yellow.			
Lonicera hildebrandtiana. Giant Burmese Honeysuckle (10)95	1.95
Large, shining leaves and clusters of white and yellow flowers make this one of the finest vines. Will bloom for 6 or 7 months of the year. Grafted stock.			
Lonicera japonica halliana. Hall's Japanese Honeysuckle (5)12	.45	1.85
Vigorous, twining vine much used as a ground cover or for covering, fences, arbors, etc. Leaves deep green and densely set, covered with fragrant white to yellow flowers for a long season.			
1-gal. Bush40		
Lonicera japonica purpurea (5)12	.45	1.85
Similar to <i>Lonicera japonica halliana</i> in most ways, except that the foliage has a red tint.			
1-gal. Bush40		
Lonicera pileata yunnanensis (5)17 1/2	.50	
Low and compact growing bush that retains foliage most of the year. Fragrant, creamy white flowers are borne in May. Very hardy.			
LOQUAT. See Eriobotrya japonica.			

	2¼" Pot	1-Gal.	5-Gal.
LYSILOMA thornberi (9) Handsome large evergreen shrub with feathery canopied foliage native of the Arizona desert. Very rare.	.20	.50	-----
MACROPIPER excelsum (Kawakawa Pepper tree) (9) Attractive evergreen, rapid growing aromatic shrub or small tree. Thrives in partial shade.	.25	---	-----
MAGNOLIA grandiflora. Southern Magnolia (7) Medium size evergreen tree with spreading head of large, deep green, glossy leaves and immense lily-like, fragrant flowers. Excellent specimen and street tree.	.17½	.45	1.85
Magnolia soulangeana. Chinese Magnolia (5) Deciduous small tree producing large multicolored exotic flowers in early spring.	---	1.00	3.50
MAHONIA aquifolium. Oregon Grape (4) Medium size, evergreen shrub for sun or shade. Has deep, glossy green, holly-like foliage, clusters of yellow flowers followed by blue grape-like berries.	.17½	.50	1.85
Mahonia aquifolium compacta (4) A dwarf compact form of Oregon Grape with dark green glossy foliage. One of the finest evergreen shrubs for sun or partial shade. Purplish blue berries are borne in profusion.	---	---	2.25
MALPIGHIA glabra. Barbados-Cherry (8) A glossy leaved shrub with light pink flowers followed by small red berries. This plant makes an excellent hedge. Should be planted only in Southern United States.	.20	.50	-----
MANDEVILLA sauveolens. Chilean Jasmine (8) Quick growing, twining vine with large, waxy, light green, pointed leaves and clusters of fragrant, white, tubular flowers with spreading petals 1½ to 2 inches across.	.15	.45	-----
MEDICAGO arborea. Shrub Alfalfa (8) This evergreen shrub has clusters of bright, orange-yellow flowers. Especially desirable for hot, dry locations.	.15	.40	-----
MELALEUCA nesophila. Bottle Brush (10) Beautiful, rosy-lavender flowers formed in dense heads on large growing evergreen shrub or tree.	.15	.40	-----
MELIANTHUS major. Honeybush (10) A spreading shrub which is used chiefly for tropical effect. The restless, grey blue foliage mass is of greatest interest because of its unique texture. Also bears a dark red or chocolate-colored spike of flowers in mid-winter.	.20	.60	1.95
METROSIDEROS tomentosa. Iron Tree, New Zealand Christmas Tree (10) Tree with large 4-inch, lanceolate, leathery leaves. Has dark red flowers in dense, terminal cymes. Evergreen.	.15	.50	1.95
5-gal. Standard 2.25			
MEYER LEMON. See Citrus Meyer Lemon.			
MURRAEA exotica (Murraya exotica). Orange Jessamine (9) An improved, dwarf, compact growing variety. Like the paniculata variety except for the more dwarf and dense growth.	.17½	.45	1.65
Murraea paniculata (Murraya paniculata). Orange Jessamine (9) Delightful, evergreen shrub obtaining a height of 6 to 10 feet. Luxuriant, bright green, small leaves and small, waxy flowers with intense, orange blossom fragrance.	.17½	.45	1.65

	2 1/4" Pot	1-Gal.	5-Gal.
MUSA ensete. Abyssinian Banana (10)60	1.95
Strictly an ornamental banana used for tropical effects in planting. Should be planted in a protected location. Makes a very impressive, large, specimen plant.			
3" pot30	
MYOPORUM laetum (9)15	.40	1.65
Shrub or small tree with bright, shiny leaves and purple spotted, white flowers. An exceptionally fine plant for use near the sea coast.			
Myoporum tomentosum (9)15	.40	1.65
Very similar to Myoporum laetum except leaves are larger. Very suitable for seashore planting.			
MYRCIARIA edulis. Cherry of the Rio Grande (10)75	1.95
Handsome evergreen tree that attains a height of about 15 ft. Bears heavy crops of tartarian cherry-like fruit—at first brilliant scarlet—then turn deeper in color. Good for preserves.			
MYRSINE africana. African Boxwood (8)15	.40	1.65
A fine, compact, evergreen shrub with small, rounded leaves like boxwood. Grows 2 to 3 feet high and does well in sun or partial shade either at the coast or inland.			
MYRTUS communis. True Myrtle (8)15	.40	1.65
Creamy-white flowers appear in the spring. This plant is excellent for hedges or single specimen. Leaves are small and deep shiny green. Very compact grower.			
Myrtus communis compacta. Dwarf Myrtle (9)12	.40	1.65
A slow growing, very compact, evergreen shrub with small, glossy, green leaves. One of the finest low growing shrubs for hedge planting.			
Myrtus communis variegata (9)15	.45	1.65
Small, compact, evergreen shrub for sun or partial shade. Leaves variegated with white, silver and green. Blue berries in winter may result if several plants are planted.			
NANDINA domestica. Heavenly Bamboo (6)15	.45	1.65
Low shrub to 3 to 4 feet with erect stems clothed in much divided leaves which assume brilliant red tints in autumn. White flowers followed by brilliant red berries in winter.			
NERIUM oleander. Oleander (9)15	.40	1.65
Large, evergreen shrubs with long, narrow, dark green leaves and showy clusters of waxy, brightly colored flowers in summer. Withstands heat and drought, doing equally well in hot, dry areas and at the sea coast. All thrive with little care.			
Nerium Cherry Ripe15	.40	1.65
Brilliant, single, rose-red flowers.			
Nerium Compte Barthelemy15	.40	1.65
Large, double flowers, bright red, sometimes streaked with white.			
Nerium Jannoch15	.40	1.65
Large, single, bright red flowers.			
Nerium Mrs. Roeding15	.40	1.65
Dwarfer in habit. Double, salmon-pink flowers in abundance.			
Nerium Pink Beauty15	.40	1.65
Largest, single, pink flowers.			
Nerium Sister Agnes15	.40	1.65
Free flowering, pure white, single.			
OCHNA multiflora (9)85	2.50
Rare and very desirable shrub with long, finely-toothed leaves of a bronzy tint. The dark yellow flowers are followed by a red fruit which is later followed by glossy, black seeds. These black seeds on the red receptacle are really colorful.			

	2 1/4" Pot	1-Gal.	5-Gal.
✓ OLEA manzanilla. Manzanilla Olive (8)20	.60	1.95
A round-headed tree with exceptionally handsome and distinctive, gray-green foliage. The leaves are silvery beneath. Not only important as an ornamental but the best fruiting, commercial variety available.			
5-gal. Bush Type			1.65
OLMEDIELLIA betscheleriana. Costa Rican Holly (10)20	.60	1.95
Evergreen shrub having large, thick, glossy serrated leaves. Very desirable and neat in growth. Excellent for use as large hedges or as a small tree.			
OPHIPOGON japonicus. Lily Turf (8)17 1/2	.50	-----
Thus named because of its sod-forming habit. It is a valuable ground cover plant having many underground runners. The flowers are light lavender.			
OSMANTHUS delavayi (7)25	.75	1.95
Has so many fine characteristics. Compact arching branches, refined growth. Fragrant white flowers.			
OSMANTHUS fragrans. Sweet Olive (9)17 1/2	.50	1.75
A very choice, evergreen shrub for sun or partial shade. The dense, dark green foliage conceals the tiny, white flowers which perfume the air with their delightful fragrance.			
3" pot30		
Osmanthus ilicifolius variegatus. False Holly (7)75	2.50
An evergreen shrub having irregularly spined leaves of leathery texture. The leaves are a dark green, edged with a creamy-white. Blooms late fall through early spring.			
3" pot50		
Osmanthus San Jose Hybrid (8)20	.60	1.95
A very attractive, tall evergreen shrub or small tree splendid for background planting. Not only desirable for its fragrant creamy-yellow flowers produced in fall and winter, but for its refined holly-like foliage.			
OXERA pulchella (10)25	.75	1.95
Recently introduced from New Caledonia, this very desirable shrubby vine will give the garden that much-needed winter color. Its ivory-white trumpet-shaped flowers and luxuriant leathery leaves lend it for use in modern architectural schemes.			
PAMPAS GRASS—See Cortaderia.			
PARKINSONIA aculeata. (8)17 1/2	.45	1.85
A very good, small tree for hot dry places. During early summer it becomes a mass of small, bright yellow flowers.			
✓ PASSIFLORA edulis. Passionfruit, Purple granadilla (10)15	.45	1.85
Fast growing, evergreen vine climbing by tendrils. Flowers about 2 inches across of typical passion flower form, white with blue markings followed by purple, plum shaped fruits. Edible and used mostly in making fruit juices.			
Passiflora mollissima (10)15	.45	1.85
Important as a fast climbing, colorful vine with interesting pink and purple flowers of intricate design. The leaves have three lobes.			
Passiflora pfordi (9)17 1/2	.45	1.85
The most beautiful passion vine with 4-inch flowers, white with pinkish tints with a purple-blue crown in center. Quick growing, producing excellent light green foliage screen. Sun or shade.			
Passiflora princeps (10)25	.75	1.95
This passion vine produces the same intricate flowers, but they are a dark red color sometimes with a white crown. It is a vigorous, fast growing vine and has deep green, leathery three-lobed leaves.			

LIQUIDAMBAR STYRACIFLUA
AND
ARALIA PAPYRIFERA
FOR DESCRIPTION SEE PAGE 45

	2½" Pot	1-Gal.	5-Gal.
PENNISETUM villosum (9)20	.50	-----
A grass native to Abyssinia that proves very satisfactory for modern plantings. The leaves are long and narrow. Produces spikes, headed with long, feathery bristles.			
PERNETTYA mucronata (8)20	.60	-----
Small, evergreen shrub especially adapted to rock gardens. The leaves are small and serrated. Color of berries will vary.			
PHASEOLUS gigantea. Giant Snail Vine (10)17½	.50	1.85
An evergreen vine producing lavender flowers in large clusters. The unusual shape of the flower makes it extremely attractive. Grows easily.			
PHILADELPHUS atlas (4)17½	.45	-----
A magnificent hybrid brought in from France. Giant, white, fragrant flowers fill the branches in the spring.			
Philadelphus virginialis. Mock Orange (4)15	.40	1.65
The finest philadelphus, far superior to other varieties. Large double and semi-double, pure white flowers are abundantly produced all spring and summer. Medium size, refined, deciduous shrub. Sun.			
PHILODENDRON selloum (10)	---	1.50	5.00
The large, glossy, deeply lobed leaves of this plant mark it as excellent for either indoor planting or shaded patio use. An excellent plant for creating that lush tropical effect. Can withstand lower temperatures than other philodendron.			
PHOENIX canariensis. Ornamental Date Palm (8)17½	.45	1.75
Forms an immense crown of gracefully curving fronds. Rapid grower.			
PHORMIUM tenax. New Zealand Flax (9)15	.45	1.65
Long, stiff, sword-like leaves margined with red and orange lines. Very suitable for tub planting. Will do well in the desert areas.			
Phormium tenax atropurpurea (9)20	.60	-----
Similar to Phormium tenax except the leaves are tinted with a red-amber color.			
Phormium tenax variegatum (9)	---	---	2.50
Similar to Phormium tenax but with prominent creamy white striping in the leaf blades.			
PHOTINIA arbutifolia. California Holly, Toyon (9)20	.60	-----
A splendid, native, evergreen shrub having green-amber foliage. Produces dense clusters of bright red berries at Christmas time.			
Photinia serrulata. Chinese Photinia (7)17½	.45	1.65
Large, evergreen shrub with 4 to 5 inch long toothed leaves, reddish green when young, becoming darker. Clusters of white flowers followed by bright red berries. Hardy.			
Photinia serrulata nova. Compact Chinese Photinia (7)	---	.60	1.85
One of the best, large, evergreen, compact shrubs. Its large, dark green, thick, shining leaves are especially good looking the whole year. During the fall many leaves turn red which enhances the shrub. In the spring it is covered with long heads of white flower clusters.			
5-gal. Standards	2.50		
Photinia serrulata lineata (7)	---	---	2.25
Similar to serrulata nova except foliage is variegated. Large spots of amber-yellow and shades of green. Very attractive.			
Photinia villosa (5)15	.50	-----
A good, hardy, Photinia which may be used either as a small tree or shrub. This deciduous plant has foliage of good texture and color during the active growing period. It has very attractive white flowers. Full sun.			

2 1/4" Pot 1-Gal. 5-Gal.

PIERIS japonica (Andromeda). Lily-of-the-Valley Shrub (7) **.75** -----

This hardy, evergreen shrub may be used in partial to very dense shade. Flowers are white and grow in graceful clusters up to six inches long. An excellent plant for foundation planting in shaded areas. Requires moist but well drained soil.

PINUS—See Conifer Section

PISTACIA chinensis. Chinese Pistachio (7) **.20 .60 1.95**

A very desirable deciduous tree. Will give an abundance of cooling shade in the summer. In the fall and early winter there is no finer plant for intensity of foliage coloring.

PITTOSPORUM crassifolia (9) **.15 .40 1.65**

A large, evergreen shrub or small tree. Foliage a gray-green and should be pruned to make the plant more compact. Excellent for screens and does well in sandy soils. Unaffected by salt winds.

Pittosporum eugenioides. Tarata Pittosporum (9) **.15 .40 1.65**

Large shrub or small tree with light green foliage. This is the best substitute for Eugenias in areas subject to frost.

Pittosporum heterophyllum (9) **.15 .40 1.65**

A spreading shrub excellent for bank planting. The foliage is light green. Drought resistant.

Pittosporum nigricans (P. tenuifolia) (9) **.15 .40 1.65**

Very similar to eugenoides except that the foliage is darker. The stems are dark brown, almost black.

Pittosporum rhombifolium. Diamondleaf Pittosporum (9) **.15 .40 1.65**

Large shrub or small tree with attractive, light green foliage, white flowers followed by orange berries.

5-gal. Standard **1.95**

Pittosporum tobira (9) **.12 .40 1.65**

Dense growing, evergreen shrub of medium to large size, more spreading than tall. Leaves long and narrow with rounded ends dark shiny green. Fragrant white flowers.

2-gal. **1.25**

Pittosporum tobira variegata (9) **.17 1/2 .45 1.75**

Similar to the above but dwarfier in habit and foliage a pleasing combination of light green and white variegated leaves.

Pittosporum undulatum. Victorian Box (10) **.15 .40 1.65**

Large shrub or small tree with rich green, pointed leaves with wavy edges; fragrant, creamy-white flowers followed by orange berries. Very desirable for screen and parkway planting.

5-gal. Standard **1.95**

PLATANUS racemosus. California Sycamore (7) **.50** -----

Tall growing, exceedingly picturesque with its branches gnarled and twisted, and its large leaves make a pleasing contrast with the irregular mottled white trunk and stems. Deciduous. Very indifferent to soil and moisture.

Bare-root, 1 yr. Seedlings **.06**

PLEROMA grandiflora (Tibouchina elegans).

Princess Flower (10) **.15 .40 1.65**

Large, evergreen shrub with bronzy green, velvety leaves, and huge, colorful, purple flowers, rich and velvety, about 3 to 4 inches across. Somewhat tender to frost.

PLUMBAGO. See also Ceratostigma.

Plumbago capensis. Blue Cape Plumbago (10) **.15 .40 1.65**

Semi-climbing shrub of most desirable habit either at the sea coast or desert. Its clusters of pink phlox-like, blue flowers provide color all summer. Utmost care is taken in selecting seeds from plants having the deepest blue flowers but variations may appear due to cross pollinization.

	2¼" Pot	1-Gal.	5-Gal.
Plumbago capensis alba. White Plumbago (10)40	-----
Similar in growth to blue plumbago listed above but flowers are white.			
PODOCARPUS—See Conifer Section, page 4			
POINCIANA gilliesi (8)20	.60	1.95
Shrub or small tree with many, small leaves. Attractive, yellow flowers with long, red stamens.			
POINSETTIA Henrietta Ecke. Double Poinsettia (10)45	1.85
The finest of the double flowering poinsettias. Produces large heads of brilliant red flowers around Christmas and for a considerable time thereafter. Cut back to 1 foot after flowering.			
POLYGALA dalmaisiana. Sweetpea Shrub (9)15	.40	1.65
A small to medium size shrub, evergreen with almost continuous flowering habit. Leaves small, light green, like box but pointed, dense and covered with orchid-like purple flowers. Prefers a dry soil. Useful in the foundation planting.			
POLYGONUM auberti. Silver Lace Vine (4)20	.50	1.85
Hardy, climbing, twining vine much used on arbors, fences, etc. where the mass of slender stems and light green foliage makes a fine cover and plumes of tiny white to pinkish flowers last for a long time. Full sun. Not particular to soil.			
Polygonum reynautria. Fleece-flower (5)20	.60	-----
Small herbaceous plants of twining habit. Used for borders or in rock gardens. Though small, the flowers are very showy, because of their profusion. The foliage is also of ornamental value.			
POTENTILLA fruticosa. Gold Drops (4)17½	.50	1.65
This charming, small shrub is compact in growth and has a mass of golden buttercup-like flowers all summer. Its small fern-like leaves are equally beautiful.			
Potentilla fruticosa. Kathryn Dykes (2)20	.60	1.75
A small compact deciduous shrub with finely cut fern-like foliage and numerous yellow flowers from late spring till fall. Prefers sun.			
PRUNUS caroliniana. Carolina Cherry, Cherry Laurel (7)15	.40	1.65
Large shrub for background planting or a small tree with dark, glossy, green foliage. Very nice in habit, white flowers followed by small, dark berries.			
5-gal. Pyramid	2.50		
Prunus cistena. Dwarf Red Leaf Plum (4)20	.60	-----
Spectacular red-leaved plum that grows to about 6 feet in height. It has the richest red foliage of any of the plum varieties, and produces clusters of white flowers with showy red stamens.			
Prunus integrifolia. (P. lyoni). Catalina Cherry (8)45	1.75
Large, slow growing shrub or small tree with light green, spiny toothed foliage, white flowers and purple fruits.			
3" pot20		
Prunus jacquemonti. Jacquemont Cherry (5)17½	.50	1.65
The branches are filled with single, pink blooms in the spring followed later by sweet, tasty cherries.			
Prunus laurocerasus. English Laurel (6)17½	.40	1.65
Large shrub with heavy, rich green foliage. Can be sheared into specimen plants or tall hedges. Leaves broad and glossy. Hardy. Will not grow in alkaline soil.			
Prunus lusitanica. Portuguese Laurel (7)17½	.45	1.75
Evergreen shrub much like English laurel but leaves darker green, narrower and toothed. Hardy, compact growing.			

PUNICA Chico. Dwarf Carnation Flowered Pomegranate (7) $2\frac{1}{4}''$ Pot .20 1-Gal. .50 5-Gal. 1.75

One of the finest dwarf shrubs on our list. Deciduous but close growing, round in outline, 1 to 2 feet high. Leaves light green; flowers like bright red carnations in summer.

Punica granatum nana. Dwarf Pomegranate (7)12 .40

Dwarf, compact and bushy shrub. Deciduous, slightly taller than Chico, producing single red flowers and abundant fruits of ornamental value only.

PYRACANTHA ROSEDALE (8)

(Trade Mark Registered)

Loveliest of them all, Pyracantha Rosedale begins its beauty show in the spring with long, arching sprays of dainty ivory-white flowers that resemble delicate lace. These are highlighted by dark, rich green foliage. In the fall and through winter, the branches are literally laden with large berries of the darkest red of any pyracantha. One of the reasons for the wide preference for this shrub is its many uses. It gracefully lends itself as a specimen for unusual display . . . trained as an espalier against wall or fence or grouped into a brilliant hedge. Add to all these exclusive features the fact that Pyracantha Rosedale possesses a great resistance to disease and birds and you will understand the reasons for its powerful sales appeal. Pyracantha Rosedale is illustrated on the cover of this catalog. It must always be sold with Trade Mark tags attached.

PYRACANTHA coccinea lalandi Monrovia (5)17½ .45 1.65

One of the hardiest pyracantha. Long arching branches with lustrous green foliage and sprays of bright orange berries in the fall and winter. Does well in the colder climates.

Pyracantha coccinea pauciflora (4)17½ .45 1.65

An evergreen, low growing, shrub that is able to withstand extreme weather conditions. Produces large orange berries in the fall.

2-gal. 1.25

Pyracantha coccinea Wyatt (5)17½ .45 1.65

Large clusters of orange-red berries are produced in early fall. Very hardy.

Pyracantha crenata-serrata graberi. Graber's Firethorn (8)17½ .45 1.65

A large vigorous growing plant, outstanding for its large red berries produced in great clusters at Christmas time.

1-gal. Pyramid 15".....\$.75 1-gal. Pyramid 30".....\$1.00

5-gal. Pyramid.....\$2.00

Pyracantha Crimson Tide (8)17½ .50 1.75

A good red-berried pyracantha.

Pyracantha coccinea royali (5)17½ .45 1.65

A very remarkable evergreen shrub producing quantities of golden-yellow berries in the fall and retaining them into winter.

	2¼" Pot	1-Gal.	5-Gal.
Pyracantha Santa Cruz Prostrata (8)20	.50	1.75
This pyracantha is valuable because of its prostrate habit of growth. Large red berries appear in the fall and are retained well into winter.			
PYRUS kawakami. Evergreen Pear (9)		1.00	-----
May be grown as a small tree, a large shrub or very effectively espaliered. The glossy luxuriant foliage is handsome the year around. In the spring it's a mass of fragrant white flowers. Grafted.			
5-gal. Espalier	4.50	5-gal. 1-stake	2.50
5-gal. 2-stakes	3.50		
QUERCUS agrifolia. Coast Live Oak (9)20	.50	1.85
A round-headed, spreading, evergreen tree which will attain considerable height. The rough black bark is in pleasing contrast to the dark green foliage. A beautiful lawn tree with pendulous branches, this species is deep-rooted and grows quickly.			
Quercus ilex. Holly Oak (7)20	.50	-----
An excellent medium-sized evergreen tree with shiny finely toothed, holly-like leaves. This most desirable street or shade tree is the fastest growing and hardiest of the evergreen oaks.			
RAPHIOLEPIS indica Enchantress. Red Indian Hawthorne (8)			2.25
Grafted plants to insure the finest compact upright growth and large bright rose-red flowers borne in clusters. Colors of flowers will vary as to area. Flowers are deeper in color near the coast. Evergreen.			
Raphiolepis indica Springtime. Pink Indian Hawthorne (8)			2.25
Similar to above except flowers are a bright pink. The flowers will also vary in color depending on location.			
Raphiolepis indica rosea (cuttings) (8)25	.75	1.95
Similar to other Raphiolepis indica in growing habits. Flowers are a blush-pink in color.			
Raphiolepis indica rosea (seedlings) (8)17½	.50	-----
Flowers will vary in color from a light pink to a deep rose.			
Raphiolepis ovata. Round-leaf Raphiolepis (6)15	.45	1.65
Medium to large evergreen shrub with rounded dark green leathery leaves of medium size; clusters of fragrant white flowers and black berries. Hardy in sun or shade.			
REINWARDTIA indica (Linum flavum). Yellow Flax (10)15	.40	-----
Dwarf compact shrub with clean light green foliage resembling phlox and bearing clusters of bright yellow flowers. Sun. 1 to 2 feet.			
RHAMNUS alaternus. Italian Buckthorn (8)17½	.45	-----
A large evergreen shrub or small tree, with appealing dark green heavy leaves. Deep blue berries appear in the fall. Often used as a hedge.			
Rhamnus Californica. Coffee Berry (8)17½	.45	-----
Large evergreen shrub with excellent growing habits. Quantities of large red berries are produced in late summer which vary from yellow to deep red. Native of California foothills.			
RHUS cotinus (Cotinus coggygria). Smoke Tree (4)17½	.50	-----
A handsome small tree that is covered with feathery panicles of small purplish-gray flowers in the summer and fall. The flowers give the effect of a dense cloud of smoke. The leaves become rich gold and red in the fall. Deciduous.			
Rhus integrifolia. Lemonade Berry (9)17½	.50	-----
Attractive slate-green leathery leaves on spreading shrub or small tree. It bears orange berries that will make a passable lemon-flavored drink.			
Rhus lancea (9)20	-----	-----
Small evergreen tree from South Africa with attractive divided foliage. Does well in Southwestern United States.			

	2¼" Pot	1-Gal.	5-Gal.
RHYNCHOSPERMUM fragrans (Trachelospermum fragrans) (10)	.25	.85	2.50
Very tropical looking evergreen vine—the leaves are large and elliptical—the flowers are white and fragrant.			
Rhynchospermum jasminoides (Trachelospermum jasminoides). Star Jasmine (9)	.17½	.45	1.65
Strong growing bush or vine with deep green leathery foliage. Thrives equally well in sun or shade. Its very fragrant star shaped flowers appear in spring and early summer.			
1-gal. staked	.50	5-gal. staked	1.85
RONDELETIA cordata. Jungle Queen (10)	.17½	.45	---
Dense growing shrub. Flowers waxy pink, so perfect they resemble artificial flowers. Leaves thick, shiny green and leathery, medium in size. A most attractive foliage all year around.			
ROSA Mermaid. Mermaid Rose (5)	---	.60	2.00
A charming, old fashioned, single rose, is excellent for growing on fences or as a ground cover. Blooms prolifically throughout the summer having large, fragrant, mellow, sunrise yellow flowers.			
Rosa Oakington Ruby (5)	.25	.60	---
Dwarf miniature type rose. Deep red double flowers—practically everblooming.			
Rosa rouletti (5)	.25	.60	---
A midget rose—all parts in miniature. Grows 6 to 8" high. Double rose flowers are borne profusely in clusters.			
ROSMARINUS foresteri. Santa Barbara Hybrid (8)	.20	.60	---
Attractive small shrub with deep green foliage—semi-upright. Really the best Rosemary—very promising.			
Rosmarinus officinalis. Rosemary (8)	.15	.40	---
Medium to tall evergreen shrub with aromatic foliage. Often listed in the culinary herbs. Leaves narrow, deep green with white undersides and light lavender to white flowers.			
RUSCUS aculeatus. Butchers Broom (9)	---	.60	---
Unusual shrub in that stems appear like leaves and flowers are borne in center of these leaves followed by tiny red berries. Evergreen.			
SALIX purpurea nana (Dwarf). Blue-green Willow (2)	.17½	.50	---
A charming low-growing willow greatly used for edgings. Easy to grow and will withstand the lowest temperatures in this country. The foliage is a blue-green. Can be pruned for formal effects or left natural.			
SALVIA pitcheri. Blue Salvia (7)	.15	.45	---
Hardy Perennial growing 2 to 2½ feet high with greyish green foliage and showy deep blue flowers. Very showy and useful for cutting.			
SARCOCOCCA ruscifolia (7)	.20	.60	1.95
It has small, white bloom, dark handsome finish of its waxy leaves, dense habit of growth, and due to the fact that it will thrive in deepest shade, it has long been a favorite for the shaded garden.			
SAXIFRAGA rubicunda (Bergenia cordifolia) (8)	.17½	.45	---
A small perennial evergreen plant for shade, having attractive dark green glossy leaves. Clusters of pink-orchid flowers appear in winter and early spring.			
SCHEFFLERA actinophylla (10)	.20	.60	2.50
This member of the very useful Aralia family may be used for indoor planting while young, because of its pendulous, glossy, green foliage. For patio use, this plant will become a lovely small evergreen tree with graceful habit of growth.			

	2 1/4" Pot	1-Gal.	5-Gal.
SCHINUS molle. California Pepper Tree (9)15	.40	1.85
Medium to large round headed hardy tree. Graceful weeping branches and feathery foliage. Insignificant flowers followed by tiny bright red or coral colored berries.			
Schinus terebinthifolia. Brazilian Pepper Tree (9)15	.40	1.85
Medium size tree. Leaves larger and darker green; berries red. A more refined tree than molle and should be more widely planted.			
SEQUOIA—See Conifer Section, page 4			
SERISSA foetida variegatus (8)15	.40	-----
A small shrub with very desirable, compact variegated foliage. Refined for planting when space is restricted. Excellent for dish gardens.			
SOLANDRA guttata. Cup of Gold (10)20	.50	1.85
A strong evergreen vine with huge yellow flowers striped with purple. The large glossy green leaves give the plant a tropical appearance.			
SOLANUM jasminoides. Potato Vine (9)15	.45	-----
This fast growing vine which blooms most of the year produces quantities of white flowers that are tinted with a sky blue color. Grows vigorously and prefers sun.			
Solanum macrantherum (9)20	.60	1.85
Woody climber having beautiful violet shade blooms in clusters, followed by red berries.			
Solanum rantonetti Improved. New Blue Solanum (10)15	.40	1.65
Medium to large free blooming evergreen shrub or vine. Flowers are interesting cart-wheel pattern, an inch across in deep blue with bright orange hub.			
5-gal. Standard	1.95	5-gal. Pyramid	1.95
SOLLYA heterophylla. Australian Blue-Bell (9)17 1/2	.45	1.65
Trailing shrub or creeping vine useful as a ground cover, as a low shrub or even as a low hedge. Foliage small, dark green leaved and small blue bell shaped flowers.			
SOPHORA secundiflora. Texas Mountain Laurel (7)	---	.60	2.50
Evergreen shrub or small tree that bears violet-blue flowers during February to April. Flowers have a violet fragrance. The silvery-gray pods open to show the red seeds late in the fall.			
SPARMANNIA africana (9)20	.60	1.85
White hairy tree or shrub of Africa with alternately toothed or lobed leaves, having white flowers with yellow stamens. Moderate temperature, plenty of light and air.			
Spartum junceum. Yellow Spanish Broom (7)15	.40	1.65
Many bright green slender branchlets almost devoid of leaves. Produces yellow flowers most of the year. Thrives on the desert or at the seashore.			
SPIRAEA Anthony Waterer. Dwarf Pink Spiraea (4)15	.40	1.65
Dwarf deciduous shrub about 2 feet tall, with compact growth and flat heads of rosy-pink flowers. Full sun.			
Spiraea japonica coccinea (4)20	.60	-----
Small shrub similar in growth to Spiraea Anthony Waterer, but richer and cleaner in color. Blooms continuously through summer—flowers are a rose-red color. Almost evergreen.			
Spiraea prunifolia. Shoe Button Spiraea (4)15	.40	1.65
A comparatively small shrub, seldom growing more than 4 to 5 feet. It is of spreading, upright growth with graceful branches which are wreathed in early spring with double white flowers along the stems. Deciduous.			

	2 1/4" Pot	1-Gal.	5-Gal.
Spiraea reevesiana (S. cotoniensis). Double Bridal Wreath (4)15	.40	1.65
Deciduous shrub to 5 feet with arching branches covered with a profusion of clusters of double white flowers in spring. Hardy.			
Spiraea van houttei (4)15	.40	1.65
All over the country in spring, blooming spiraea in widely planted and relished for the festoons of tiny white single flowers.			
STENOCARPUS sinuatus. Firewheel Tree (10)			2.50
Native to Australia, but grown outdoors in Southern California. Having bright red flowers hanging in heavy umbels.			
STEPHANOTIS floribunda (10)			
A twining vine with leathery shiny leaves and pure white fragrant waxy flowers.			
3" pot40		
STRELITZIA nicolai. Bird of Paradise (10)35	1.00	2.75
The flowers of this plant are of such exotic form and coloring as to suggest the head of a cockatoo. Has white flowers with blue tongues and flowers freely without special care. The foliage is similar to a banana, but more leathery and withstands wind and weather well.			
Strelitzia reginae. Bird of Paradise (10)30	1.00	2.50
The flowers have realistic bird-like heads in orange, blue, and purple, that bloom during the fall and winter. Large banana-like leaves, leathery and tropical looking.			
3" pot50		
SYRINGA persica Hathaway (4)17 1/2	.50	1.75
An attractive lilac having long dense clusters of fragrant lavender flowers in early spring. This originated at the Hathaway Nurseries, Visalia, California.			
Syringa persica laciniata. Cutleaf Persian Lilac (5)15	.40	1.65
The most reliable lilac for plating in southern California. Deciduous shrub to 6 feet with finely cut light green leaves and long sprays of bright lavender lilac flowers in spring. Fragrant.			
Syringa rothomagensis (S. Chinensis) (4)15	.40	1.65
Unusually large purple blossoms are borne profusely in the spring. This was hybridized in France in the 18th Century between varieties of persica and vulgaris. Very popular.			
TABERNAEMONTANA grandifolia (10)25	.75	2.25
A tropical shrub or small tree used for unusual plantings. Its fragrant white flowers are followed by berries in summer.			
3" pot40		
TAMARIX hispida coolidgei. Pink Tamarix. (4)15	.40	1.65
Much planted in desert areas for the drought and heat resisting ability of this shrub. Large in size with plummy light green scale-like leaves and billowy masses of pink flowers.			
TAXUS—See Conifer Section, page 20			
TECOMA australis (Pandorea pandorana) (10)17 1/2	.50	1.85
Evergreen vine with yellowish-white flowers spotted with purple. Funnel shaped flowers.			
Tecoma capensis (Tecomaria capensis). Cape Honeysuckle (10)15	.40	1.65
Free growing large shrub or vine with glossy green pinnate leaves and brilliant clusters of orange-red trumpet shaped flowers.			
5-gal. Staked	1.95		
Tecoma jasminoides rosea (Pandorea jasminoides rosea).			
Two-toned Trumpet Flower (10)17 1/2	.50	1.85
Delicate climbing evergreen vine. Light green foliage and large clusters of light pink flowers with deep crimson throats. For sun or partial shade.			

Tecoma stans (Stenolobrium stans) Yellow Bells.
Esperanza (10) **.20**

Evergreen shrub producing bright yellow flowers shaped like bells from September through January. Large luxurious tropical foliage.

TERNSTROEMIA japonica (8) **.60** **1.95**

Tropical evergreen trees or shrubs with solitary or clustered flowers about an inch across, pale-yellow. Also bearing attractive berries.

TEUCRIUM chamaedrys (5) **.15** **.40** **1.65**

Especially adapted to heat and drought, this very procumbent shrub, having glossy leaves and reddish-purple flowers during summer, makes an excellent border plant.

Teucrium fruticans (7) **.15** **.40**

This plant is well adapted to plantings in rock or wild gardens. The foliage is silvery gray. Bears small blue flowers.

THEVETIA nerifolia. Yellow Oleander (10) **1.85**

This is an evergreen tree with alternate leaves. Has strikingly large, yellow funnel-like flowers in terminal clusters which are pleasingly fragrant. Also bears hard, black angled fruit.

THRYALLIS glauca (10) **.20** **.50** **1.85**

A neat somewhat tree-like shrub which withstands heat, drought, wind and sterile soils. The attractive yellow flowers are borne mainly from August to November.

THUNBERGIA gibsoni. Orange Clock Vine (10) **.50**

This vine is outstanding for its abundant and effective rich orange flowers. Grows fast and blooms most of the summer.

Thunbergia grandiflora. Blue Sky Vine (10) **.17½** **.50** **1.85**

Twining evergreen vine making a lush rapid green cover with large sky-blue trumpets with white throats. Sun.

TIPUANA tipu. Tipu Tree (7) **.20** **.60** **1.95**

Very rapid growing tree to 30 ft. in height. During June and July branches droop with yellow flowers. Evergreen.

THUJA—See Conifer Section
TRACHELOSPERMUM—See Rhynchospermum.
TRISTANIA conferta. Brisbane Box (9) **.17½** **.50** **1.85**

A shrub or tree which grows quite large, having groups of small white flowers borne in the axil of the leaves.

TURRAEA obtusifolia. Star Bush (10) **.20** **.50** **1.75**

A refined low growing shrub with small neat foliage. The white flowers are star-shaped and are in bloom almost continuously.

ULMUS parvifolia sempervirens. Evergreen Elm (9) **.20** **.50** **1.85**

A fine small tree for lawn planting. Makes a flattened spreading rounded head with gracefully arching branches and small deep green leaves. Evergreen.

Ulmus parvifolia sempervirens Drake (9) **.20** **.60** **2.25**

The rich foliage, the classically shaped trunk, and gracefully sweeping branches of this evergreen tree, make it a winner in shade tree competition. It grows more upright than the well-known Evergreen Elm.

VERONICA andersoni (Hebe andersoni) (9) **.15** **.40** **1.65**

Compact evergreen shrub with smooth, light green leaves and pointed spikes of lavender blue flowers. Almost everblooming.

Veronica buxifolia (Hebe buxifolia) (8) **.15** **.40** **1.65**

A fine leafed shrub for low specimens or hedge plantings. The thick leaves are arranged extremely regular on the stems.

	2 1/4" Pot	1-Gal.	5-Gal.
Veronica imperialis (Hebe speciosa) (9)15	.40	1.65
Thick rounded leaves with purple veins. Flowers in pointed spikes, deep wine red. Veronicas are excellent ever-green shrub for planting in coastal areas even in exposed places.			
VIBURNUM burkwoodi (5)20	.60	1.85
In early spring this handsome shrub bears a large 3-inch head of waxy, white, pink-flushed flower clusters. It has a sweet, gardenia-like fragrance.			
Viburnum japonicum (8)15	.40	1.65
Beautiful compact shrub with large light green foliage and clusters of white flowers.			
Viburnum odoratissimum. Sweet Viburnum (8)17 1/2	.40	1.65
A very dependable plant of erect growth and bearing fragrant white flowers. Its large thick leaves of unusual texture make a most attractive shrub throughout the year.			
Viburnum opulus sterile. Eastern Snowball (3)17 1/2	.45	1.65
Hardy deciduous shrub to 8 feet. Flowers in globular clusters pure white in May and June. Easy to grow.			
Viburnum tinus robustum (7)15	.40	1.65
Medium to large evergreen shrub with luxuriant deep green foliage. White flowers in clusters, often blushed with pink are followed by black berries. Sun or shade. Improvement on V. tinus, practically mildew proof.			
Viburnum suspensum. Sandankwa (8)15	.40	1.65
One of the finest evergreen shrubs for foliage and flowers. Fragrant white flowers followed by black berries. Sun or shade.			
2-gal.	1.25		
VITEX agnus castus varieg.15	.40	-----
Medium-sized evergreen shrub with variegated creamy white and green foliage.			
Vitex lucens. New Zealand Chaste Tree (9)60	2.25
Very desirable small tree for its dark green foliage alone. In late summer countless pink flowers appear. Later, it has an abundance of orange-red berries.			
Vitex macrophylla. Lilac Chaste Tree (6)15	.40	-----
A graceful shrub with long spikes of lovely pale blue flowers. It blooms freely through the summer. A vigorous grower and produces its flowers on the new wood. An improvement over Agnus-castus.			
WASHINGTONIA robusta (8)17 1/2	.45	1.85
A popular fan palm. Tall and slender, with brilliant green foliage.			
WEIGELA Bristol Ruby (Pat. No. 492) (4)35	.60	1.85
A new deep red flowered Weigela. Excellent dark green foliage.			
Weigela Eva Rathke (4)15	.40	-----
Bright red honeysuckle-like flowers. A beautiful shrub to 6 feet. Sun.			
Weigela rosea (Weigela florida). Pink Weigela15	.40	1.65
Medium to large size deciduous shrub producing masses of pink flowers in spring. Excellent light green foliage. Sun.			
Weigela rosea variegata (4)15	.40	1.65
Foliage variegated white and green. Effective for foliage contrasts, and heavy bloom of pink and white flowers.			
Weigela Vaniceki (4)17 1/2	.45	1.65
Highly desirable shrub having large bright red flowers and upright compact habit of growth. Very hardy. This weigela has an especially long blooming period.			

WOODWARDIA Simplex. Chain Fern (9)50 1.75

Suited to outdoor culture and easily managed if moisture is adequate. Some varieties will produce fronds to 9 ft. and 10 ft. long and 1 1/2 ft. wide.

XYLOSMA senticosa (Myroxlon senticosum) (9)20 .50 1.75

Trailing shrub with light green glossy foliage. Recommended for narrow places as a ground cover, or espaliered on a trellis or wall. Always an attractive foliage shrub showing reddish tints in the new growth.

TEMPERATURE RATINGS

(HARDINESS)

To find the zone you are in, refer to map, pages 32-33, center of this book, which we use by courtesy of Mr. Donald Wyman, as shown in his publication, *Shrubs and Vines for American Gardens*, published by the Macmillan Company, New York, 1949. Please understand that these temperature ratings show our opinions to the best of our ability, but we disclaim all responsibility for their correctness.

WHOLESALE ONLY

This list is intended for the trade only. If it should be sent by mistake to people not entitled to trade prices, we would greatly appreciate if you would notify us at once, so that our mailing list can be corrected.

F. O. B. MONROVIA—All Prices quoted in this catalog are F. O. B. Monrovia, California.

TERMS—While our regular terms are cash, we will be pleased to make credit arrangements with established concerns. Open accounts are payable on or before the 10th of the month following date of delivery. Overdue accounts are subject to 1% monthly interest charge and sight draft. No discount will be allowed as it is our policy to maintain attractive prices consistent with high quality stock. The issuance of this catalog automatically cancels all previous quotations. It is understood that all orders accepted are subject to availability of stock at the time of delivery.

CLAIMS—Claims must be made immediately upon receipt of goods. If an error has been made by us, please notify us promptly, and we shall take pleasure in adjusting the matter. We do not guarantee plants to live. At no time will we be responsible for more than the purchase price of the stock ordered.

We carefully pack all stock, and make every effort to secure prompt and careful handling by the transportation company. However, our responsibility ceases upon delivery of stock in good condition to the transportation company.

Please file a claim at once with the transportation company, if your stock has been damaged or delayed in transit. In this connection we shall be glad to assist you in any way we can.

WE ARE A PINK TICKET NURSERY—It certifies that stock from which shipment is made has been found free of pests not of general distribution in Los Angeles County and is released for planting in said county without further inspection.

ACKNOWLEDGMENT—Your orders will be acknowledged promptly and shipments made as quickly as possible, so if your order is not acknowledged please advise us immediately. Sometimes, because of inclement weather, or the press of business, there may be a slight delay in shipping, but we assure you that this will not be more than is absolutely necessary.

Non-Warranty—The Monrovia Nursery Company gives no warranty, express or implied, as to the variety or productivity of any nursery stock it sells. Liability in all instances is limited to the purchase price. No liability is assumed by seller for delay or failure to deliver caused by wars, strikes, fires, floods, droughts, embargos or any other contingencies beyond seller's control. If the purchaser does not accept the goods on these terms, they are to be returned.

MINIMUM ORDERS

Please keep in mind that an order to be shipped by express, parcel post, or motor freight must total \$20.00 or more. This minimum also applies to local deliveries.

SHIPPING

If you do not state your preference for method of shipping, all arrangements will be made for you with speed, safety and economy in mind.

Out-of-state shipments are made most economically by our contracted carrier motor freight service.

A full semi-truck load will consist of approximately 27,000 lbs. of plant material. A combination or split load consists of several orders each consigned to a different purchaser.

To have your order included in a combination load, a minimum order of \$250.00 is necessary, and delivery will be made as soon as enough orders are accumulated to fill a semi-truck. This minimum order of \$250.00 is required as the trucking concern under contract will make only a limited number of stops per trip. Trucking charges are a cash transaction and are due to Monrovia Nursery immediately after delivery of stock. **Do not pay the driver.**

If you are unable to meet the \$250.00 minimum order, undoubtedly a nursery in your immediate area could add to the order to make this required minimum, and have stock delivered to one nursery. A number of our customers pool their orders this way.

When ordering a truckload or a carload, beyond our free delivery area, packing, loading and bracing are free.

Approximate Weights of Plants in Following Container Sizes:

1 gallon cans	8 lbs. each	2¼" pots3 lb.
5 gallon cans	50 lbs. each	3" pots4 lb.
Flats	20 lbs. each	5" pots2 lbs.
7 gallon cans	60 lbs. each	7" pots	3.75 lbs.

PACKING

There is no charge made on packing lining-out stock (2¼" and 3" pot-sized plants) and Azaleas. These are shipped by Railway Express unless specified differently by you. To insure safe and economical delivery, the plants are transferred from clay pots into waxed paper pots, and securely packed in sturdy, lightweight cartons. Please remember that shipping the larger plants (1 and 5-gallon sizes) by express or public motor freight is very expensive. Not only are the transportation rates high, but it is necessary that nursery stock be packed which means a packing charge as follows:

1-gallon cans	20¢	Labor and materials for stacking flats	35¢
5-gallon cans	50¢	Cost of flat	25¢

FUMIGATION

For your convenience we are equipped to fumigate plants. Charges are made at operating costs: 2¼" pots 2¢; 3" pots 4¢; 1-gallon cans 7¢; 5 gallons 25¢; 7 gallons 40¢; flats 25¢.

DELIVERY SCHEDULE

This schedule is arranged to give you the best possible delivery service and is followed closely. However, any time you place an order for a full truckload, shipment can leave the nursery within a few days after the order is placed, regardless of the schedule. If the first of the month falls on a Wednesday or earlier, that week is considered the first week of the month as pertaining to the schedule below. Keep in mind that the minimum orders listed in the schedule are required if your stock is to be shipped by our truck or contracted carrier, however, only an order of \$20.00 is required to have your stock shipped by express motor freight, or parcel post.

Please—We must have your order a few days before the scheduled delivery. This not only gives us more time to select better stock, but it does insure delivery on schedule.

Area	Minimum Delivery Order	Time of Delivery
L. A. Metropolitan Area San Fernando south to Long Beach. Santa Monica and Manhattan Beach east to Covina and Orange County line.	\$20.00	Weekly
Orange County	20.00	2nd and 4th Thursday of each month. Every Thursday during fall and spring.
San Bernardino and Riverside Area Covina east to Redlands. Cucamonga south to Corona.	20.00	1st and 3rd Tuesday of each month. Every Tuesday during fall and spring.
San Diego Area Oceanside and Vista south to Chula Vista and Palm City. Coronado east to Lakeside, La Mesa and Lemon Grove.	25.00	1st and 3rd Wednesday of each month.
Santa Barbara Area Goleta, City of Santa Barbara and all of Ventura County.	25.00	1st and 3rd Monday of each month.
Palm Springs Area Banning east to Indio including Hemet and Perris.	50.00	4th Monday of each month. Any Monday when a full load is available.
Bakersfield Area Wasco southeast to Mojave, Lancaster and Palmdale.	50.00	2nd week of each month.
Paso Robles Area Paso Robles south to Lompoc and Solvang.	50.00	1st week each month during fall and spring.
Fresno Area Madera south to Delano including all points such as Visalia, Lemoore, Porterville and Reedley.	50.00	2nd week of each month.
Sacramento Area Red Bluff south to Merced, including Auburn, Oakdale, Los Banos, Tracy, Brentwood, Rio Vista and Woodland areas.	150.00	2nd week of each month.
Monterey Area Including Salinas, Gilroy, Watsonville and Santa Cruz areas.	150.00	1st week of each month.
San Francisco Area Martinez, Berkeley, south to San Jose, including Walnut Creek, Richmond, Oakland, Pittsburg, etc.	150.00	3rd week of each month.
Santa Rosa Area Ukiah south to Mill Valley and Vallejo, including Napa, Kenwood and Graton areas.	150.00	4th week of each month.

Out-of-State Shipments—To Arizona, Colorado, Idaho, Nevada, New Mexico, Oklahoma, Oregon, Texas, Utah, and Washington, regular scheduled deliveries are made during spring and fall by contracted carrier service (motor freight)—full loads or split loads. Minimum order—\$250.00.

We will also arrange for railroad deliveries if you prefer.

Delivery charges are due and payable immediately upon receipt of your invoice on plant material shipped by our truck or via contracted carrier. Please do not pay the truck driver.

Lantana Callowiana Goldrush
PAT. PENDING

Lantana **GOLDRUSH**

This sensational new Lantana Goldrush (Pat. Pending) is now available. The trailing habit of growth makes it especially popular for use as a ground or bank cover, in planters, hanging baskets and for trailing over walls. The distinctive foliage, of deep forest green, provides a handsome back-

ground for the profuse clusters of golden-yellow blooms that cover the plant almost the entire year. The tonic fragrance of flowers and foliage has a pleasing suggestion of eucalyptus. See ORNAMENTALS for prices.

"ALISAL"

Dear Monrovia Nursery Customer,

Recent heavy and steady rains in Southern California have received considerable news coverage all over the United States. These rains hit hard in the Azusa-Glendora areas and have caused extensive flooding and mudslides in the area. Yes, we have had considerable property damage, but a surprisingly minor loss of plants. These mishaps are being corrected as we continue our normal daily operations. Canning operations continue, pruning and weeding continue, and propagation continues in full swing (right through the rains). Most important, our well washed stock is being selected to fill orders...and our shipping department has had no let up in making deliveries. A very small percentage, perhaps 5% of our stock, has been destroyed causing no hardship whatever in filling your orders. Only a limited number of varieties have been damaged.

As you can see we are continuing normal operations to insure you delivery of Distinctively Better plants...and plenty of them! If you wish to inquire about the availability of any specific varieties, we welcome your call.

Wishing you a successful spring season,

MONROVIA NURSERY COMPANY

Martin W. Usrey
Martin W. Usrey

Vice-President and General Manager

The Monrovia Nursery Company will exercise care to have all plants true to name. Nevertheless, it is understood that should any plant prove otherwise, we shall not be liable for any sum greater than that paid for such plants as may prove untrue. If the purchaser does not accept the goods on these terms, they are to be returned at once.
